

Resolution No.: 15-1657  
 Introduced: June 27, 2006  
 Adopted: October 31, 2006

**COUNTY COUNCIL  
 FOR MONTGOMERY COUNTY, MARYLAND**

By: County Council

**SUBJECT:** Amendment to the FY07-12 Capital Improvements Program (CIP) and  
 Special Appropriation to the FY07-12 Capital Budget  
 Maryland-National Capital Park and Planning Commission (M-NCPPC)  
 Black Hill Trail Renovation and Extension (No. 058701)

**Background**

1. Article 28, Section 2-118(a)(6) of the Maryland Code permits the County Council to amend the budget of the M-NCPPC by resolution on the Council's initiative, or at the request of the Commission, after receipt of a recommendation from the County Executive, and after public hearing upon reasonable notice to the public.
2. Section 308 of the Montgomery County Charter provides that a special appropriation: (a) may be made at any time after public notice by news release; (b) must state that the special appropriation is necessary to meet an unforeseen disaster or other emergency or to act without delay in the public interest; (c) must specify the revenues necessary to finance it; and (d) must be approved by six members of the Council.
3. Section 302 of the Montgomery County Charter provides that the Council may amend an approved capital improvements program at any time by an affirmative vote of six Councilmembers
4. M-NCPPC requests an amendment to the FY07-12 CIP and a special appropriation to the FY07 Capital Budget for the Maryland-National Capital Park and Planning Commission as follows:

Project Name	Project No.	Cost Element	Amount	Source of Funds
Black Hill Trail Renovation & Extension	058701	Site Improvements	\$664,000	Program Open Space
Black Hill Trail Renovation & Extension	058701	Site Improvements and Design	\$121,000	GO Bonds

5. On May 2, 2006, the State of Maryland sent official notification of Montgomery County's FY07 Program Open Space (POS) apportionment, which is a significantly greater allocation than assumed in the Planning Board's requested FY07-12 CIP. This amendment and special appropriation will accelerate this project, which has been facility planned and meets project readiness criteria. This action also substitutes POS funds for GO Bonds.
6. This amendment is consistent with the criteria for amending the CIP because the project leverages significant non-County sources of funds (Program Open Space).
7. Notice of public hearing was given and a public hearing was held.
8. On October 23, 2006 the Planning, Housing, and Economic Development Committee held a worksession to consider M-NCPPC's request and recommended approval.

**Action**

The County Council for Montgomery County, Maryland, approves the following actions:

1. The FY07-12 Capital Improvements Program of the Maryland-National Capital Park and Planning Commission is amended as reflected on the attached project description form and a special appropriation to the FY07 Capital Budget is approved as follows:

Project Name	Project No.	Cost Element	Amount	Source of Funds
Black Hill Trail Renovation & Extension	058701	Site Improvements	\$664,000	Program Open Space
Black Hill Trail Renovation & Extension	058701	Site Improvements and Design	\$121,000	GO Bonds

2. The County Council declares that this action is necessary to act without delay in the public interest.

This is a correct copy of Council action.

Linda M. Lauer, Clerk of the Council

CLERK'S NOTE: This resolution was reconsidered and readopted on 11/28/06. See resolution 15-1686.

**DESCRIPTION**

There are two trail projects in Black Hill Regional Park. The first project, the Black Hill Trail Renovation, upgrades an existing 2.38 mile hiker-biker trail in Black Hill Regional Park, along the eastern shore of Little Seneca Lake from Wisteria Drive north to Spinning Wheel Drive. The existing 6-foot wide trail does not meet park standards and is seriously deteriorated. The trail renovation and upgrade provides an eight-foot wide trail that will fully comply with the Americans with Disabilities Act (ADA) (except in one area where full ADA compliance is not possible without extensive tree-clearing) and park construction standards. This project is proposed for design in FY07 and construction in FY08-09.

The second project, the Black Hill Trail Extension, is a 1.2 mile extension of the Black Hill Hiker-Biker Trail from the existing trail terminus near Spinning Wheel Drive to Parking Lot 6, near the picnic area, in Black Hill Regional Park. The new eight-foot wide trail will connect two existing segments of the trail and provide the only hard surface trail connection from the Water's Landing community to the developed area of Black Hill Regional Park. The project is proposed to complete design in FY07 and construction in FY08-09.

**Service Area**

Clarksburg and Germantown Planning Area.

**JUSTIFICATION**

Developers built the existing trail as the adjacent residential communities developed and conveyed the land and trail to the Commission in 1982. The trail was constructed using little or no base and with a substandard asphalt layer. It is seriously deteriorated, and in some areas the pavement is cracked and grass or weeds grow in the exposed soil. In other areas, the pavement at the trail edge has completely crumbled and is little more than gravel. Settling pavement creates sinkholes. There is an obvious deflection in the wood pedestrian bridge. As a precaution, maintenance staff are not permitted to transport maintenance equipment across the bridge. In addition, the trail was built before the Americans with Disabilities Act (ADA) guidelines were developed. It is too narrow to safely accommodate the growing number of users, and contains several areas of steep slopes, three of which are near access points to the trail. The proposed eight-foot width affords minimum space for bicyclists, wheelchairs, strollers, maintenance crews, and emergency vehicles.

Several plans envision a hard surface trail network that links the residents of Germantown and Clarksburg to Black Hill Regional Park. Renovation of the existing hard-surface trail is part of this larger network which will make the regional park accessible to thousands of residents and make the Clarksburg amenities accessible to those living in the vicinity of the park. The Black Hill Regional Park Master Plan, approved in 2002, make this project a priority.

Approximately 425,000 people visit the park each year. In 1997 countywide park user survey, respondents indicated that they used trails more than any other recreation amenity: 67 percent had used paved park trails in the last year. Biking and walking paths topped the respondents' lists of desired facilities or greatest facility shortages.

**Plans and Studies**

Black Hill Regional Park Master Plan, approved 2002. Facility plan for renovation project, approved April 2003. Facility plan for extension project, approved September 2003. Clarksburg Master Plan, approved and adopted 1994. Greenway-Clarksburg Master Plan Implementation Study, 1999, and Countywide Park Trails Plan (1998). A review of impacts to pedestrians, bicycles and ADA (Americans with Disabilities Act 1991) has been performed and addressed by this project. Traffic signals, streetlights, crosswalks, bus stops, ADA ramps, bikeways, and other pertinent issues will be considered in the design of the project to ensure pedestrian safety

**Cost Change**

Increase due to industry-wide construction cost increases and inflation.

**STATUS**

Design Stage. Both phases, trail renovation and extension, are scheduled in FY07-09.

**OTHER**

Design for the extension is under contract in the Trails: Hard Surface Design and Construction PDF 768673.

**FISCAL NOTE**

FY07 Amendment and Special Appropriation to accelerate Phase II with POS funding.
