Each special appropriation shall be approved by not less than six Councilmembers. The Council may approve a special appropriation at any time after public notice by news release. Each special appropriation shall specify the source of funds to finance it.
2. Section 302 of the County Charter provides that the Council may amend an approved capital improvements program at any time by an affirmative vote of six Councilmembers.

4. The Qualified Zone Academy Bond Grants (QZAB) program is authorized by the Federal government and enables the State of Maryland to sell bonds and allocate the proceeds to public school systems for capital improvements at eligible public school buildings. These funds can be used for capital improvements, repairs, and deferred maintenance work for existing public school buildings. These funds may not be used to construct new public schools or to build additions to existing public schools. Additionally, these funds may be used to renovate facilities that have not been previously used for education.

- 5. For a project to be eligible under the QZAB Program the applicable school must be located in either a Federal Empowerment or Enterprise Zone, or have 35% or more of the student body eligible for free or reduced-cost meals (FARMs) through the school lunch program under the National School Lunch Act.

For each project, a 10 percent contribution to the applicable school, either financial or in-kind, is required from a business or private sector entity to be provided during the life of the QZAB bonds.

#### DESCRIPTION

This project funds a comprehensive and ongoing plan to replace key facility and site components based on an inventory of their age and conditions. A comprehensive inventory of all such components has been assembled so that replacements can be anticipated and accomplished in a planned and orderly manner. The pace of the modernization schedule, due to fiscal constraints, justifies the need to increase the scope of this project in order to maintain buildings for longer periods before a capital project will upgrade all systems. Facility components included in this project are code corrections, physical education facility/field improvements, school facility exterior resurfacing, partitions, doors, lighting, media center security gates, bleachers, communication systems, and flooring. Roof replacements are funded in Project No. 766595. Coordination with scheduled modernizations is maintained to avoid redundancy.

An amendment to the FY 2003-2008 CIP was approved to provide two additional staff members for the Department of Facilities Management to manage the additional contracts within the PLAR project office. The approved amendment also provided cafeteria upgrades to four high schools and one middle school, and provided upgrades to the mechanical/electrical/emergency preparedness systems at the Carver Education Services Center (CESC). The Board of Education requested funds to provide minor improvements at the swimming pool at Piney Branch Elementary School; however, the County Council in the adopted CIP, moved these funds from this project in MCPS to the county government's PLAR project. An FY 2003 special appropriation and amendment to the FY 2003-2008 CIP in the amount of \$1.586 million was approved for systemic renovation projects and funded through the Federal School Renovation Program Funds via the Maryland State Department of Education.

An FY 2005 appropriation was approved to continue this project to provide for the necessary replacement of some building systems and playground equipment. The appropriation also includes funding for the replacement of walk-in and serving lines at various cafeterias throughout the system. Increased expenditures in the out-years of the CIP reflect the need to address more PLAR projects, partially due to the delay in the modernization schedule. For FY 2005, an additional \$428,000 in state aid was included in this project as a result of federal funding, issued by the state, through the Qualified Zone Academy Bond (QZAB) program. An FY 2006 appropriation was approved to continue this project at its current level of effort. An FY 2007 appropriation was approved to continue to address PLAR projects systemwide. The increase in expenditures shown above will address the rise in construction costs and a rising backlog of projects, as well as provide additional funding for playground equipment, and the replacement of a variety of cafeteria equipment throughout the school system. The County Council approved, in the FY 2007-2012 CIP additional funding to provide minor modifications to the Gosvenor holding facility. An FY 2007 Special Appropriation in the amount of \$992,000 was approved in this project as a result of federal funding, issued by the state, through the Qualified Zone Academy Bond (QZAB) program. An FY 2008 appropriation was approved to continue this level of effort project.

\* Expenditures in this project will continue indefinitely.
