

Resolution No.: 16-1170
Introduced: October 20, 2009
Adopted: October 20, 2009

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

By: County Council

SUBJECT: Establishment of Spending Control Limits for Use in the Preparation of the FY11 Capital and Operating Budget of the Washington Suburban Sanitary Commission

Background

1. When the Montgomery and Prince George's County Councils approved the FY94 budget of the Washington Suburban Sanitary Commission (WSSC) in May 1993, their concern about rising WSSC rates, debt, and debt service led them to create a bi-County Working Group on WSSC Spending Controls to review WSSC's finances and recommend spending control limits to guide the preparation of the WSSC budget.
2. The Working Group's January 1994 report recommended "the creation of a spending affordability process that requires the Counties to set annual ceilings on WSSC's rates and debt (debt in this context means both bonded indebtedness and debt service), and then place corresponding limits on the size of the capital and operating budgets of the Commission."
3. On February 15, 1994 the Prince George's County Council adopted Resolution No. CR-12-1994. This resolution proposed a bi-County Rate Affordability Committee (RAC), which would transmit to the two Councils before October 15 of each year recommended "limits to the increase of debt and debt service in the WSSC water and sewer operating budget and to the increase of WSSC water and sewer rates for the next fiscal year," as well as "debt and rate targets for the next six years."
4. On April 5, 1994 the Montgomery County Council adopted Resolution No. 12-1558, which calls for the establishment of a WSSC spending affordability process in each County. Under this process each Council appoints a Spending Affordability Committee (SAC); for Montgomery County the SAC is the Transportation and Environment Committee. Each SAC recommends spending control limits to its Council, and each Council recommends limits and transmits them to the other Council. Spending control limits are "ceilings on elements of the WSSC capital and operating budgets in the following year that have been selected by the SAC's. Spending control limits must include ceilings on debt and debt service."

5. Both Councils' resolutions provide for the Councils to adopt identical spending affordability resolutions for the following fiscal year. Both resolutions state that the Councils must not approve a WSSC budget in excess of the approved bi-County spending control limits unless a majority of each Council votes to raise the limits.
6. A public hearing was held on October 6, 2009.
7. On October 19, 2009 the Transportation, Infrastructure, Energy and Environment Committee discussed WSSC's FY11 spending control limits and made recommendations to the Council.

8.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

1. The Montgomery County Council recommends to the Prince George's County Council the joint establishment of four spending control limits for use in preparation of the FY11 WSSC capital and operating budget.
2. These spending control limits are:
 - New debt: \$273,279,000
 - Debt service: \$175,803,000
 - Total water/sewer operating expenses: \$549,142,000
 - Maximum average rate increase: 9.9%
3. Assumed within these recommended limits is the use of approximately \$1.7 million in excess fund balance to offset a portion of the costs of WSSC's Enterprise Asset Management/Enterprise Resource Planning (EAM/ERP) implementation in FY11.
4. The Montgomery County Council believes that reaching consensus with the Prince George's County Council on FY11 spending control limits is a critical step in the WSSC budget approval process and will work with the Prince George's County Council to agree on FY11 limits as soon as possible.

This is a correct copy of Council action.

Linda M. Lauer, Clerk of the Council
