2. The two main changes are:
 - a. To increase the cap on the permit fee for commercial construction projects from \$262,885 to \$366,800.
 - b. To require applicants for permits to pay a greater part of the County's cost of reviewing building plans, when the applicants apply for the permits and before the County incurs the costs, rather than when the applicants get the permit after the County incurs the costs.
3. The Council reviewed the regulation under method (2) of §2A-15 of the County Code.
4. Under method (2), the regulation takes effect if the Council does not approve or disapprove it within 60 days after the Council receives it, unless the Council extends time. The Council received it on May 26, 2011.

SUMMARY: This Executive Regulation modifies the maximum building permit fee that covers the administration, plan review and enforcement programs of the Department of Permitting Services. The building permit filing fee payable at the time of permit application has been increased to a percentage of the total permit fee due. Sections I.C.2.B & 3.B and II.C.2.B & 3.B have been modified to a two-tiered fee calculation. Commercial projects with construction costs of more than \$8,000,000 to a maximum of \$50,000,000 are subject to an additional fee calculation. The overall permit fee for other permit types has not been increased. Alternative energy sources, such as solar/PV, generators and wind turbines, have been added to Sections III.B.5&25. Re-inspections fees have been removed from Section I.G. and Section II.G. A Residential Use and Occupancy fee has been added to cover the costs associated with the regulation to issue Use and Occupancy Certificates to residential properties in accordance with ZTA 09-03. In Section VII.D.1&3 the language exempting mechanical work performed without a permit from the normal fee has been removed and a fee for an applicant requested partial inspection was added. In Section VII.F a fee for minor room description name changes to the approved plans for residential projects was added. Instead of the higher plan revision fee, applicants will pay a lower fee for this simple revision. In Section VII.G.2 and III.H language is inserted that was omitted in the previous Executive Regulation 11-08 due to typographical error. This regulation has also been revised to clarify existing fee descriptions.
