The Montgomery County Department of Transportation (MCDOT) invites you to attend a public workshop to learn about the Dale Drive Pedestrian Facility Improvement Project — Facility Planning Study. The limits of this project are from Georgia Avenue (MD 97) to Colesville Road (US 29). This study will evaluate long-term pedestrian facility improvements on Dale Drive, such as concrete sidewalk, a shared use path, accessibility improvements, and various traffic safety measures. This phase of the project will result in the development of the preliminary (35%) design. There is no funding scheduled for final design and construction at this time.

The project team will present the 35% design, including the shared use path, stormwater management concepts, as well as other minor intersection improvements within the project limits. We will collect additional feedback from the community, discuss concerns and answer questions regarding this project. We encourage you to attend, share your concerns, and provide suggestions that may better reflect your community's needs for safer walking and bicycling.

Community members are also welcome to provide comments and feedback after the public meeting and throughout this project. Should you have questions or comments regarding this project at any point, please contact the project manager.

Dale Drive Pedestrian Facility Improvements Public Meeting

Wednesday, February 26, 2020
7:00PM - 9:00PM

Sligo Creek Elementary School
500 Schuyler Road
Silver Spring, MD 20910

Project Manager:
Angel Cheng, P.E.
