NEBEL STREET SEPARATED BIKE LANES From Randolph Road to Marinelli Road

PROJECT SCOPE AND DESIGN

The Montgomery County Department of Transportation is about to begin construction of Nebel Street Separated Bike Lanes project. This project will construct approximately 0.5 miles of separated bike lanes along Nebel Street. The separated bike lanes will be one-way on either side of the street, similar to conventional bike lanes, though with a physical separation from moving vehicles.

These separated bike lanes are part of a larger network of bike facilities being constructed in White Flint.

ON-STREET PARKING SHIFT

As part of this project, there will be some minimal impacts to parking due to the relocation of parking spaces. The total number of spaces will remain the same as it is today, however, all of the

parking spaces on the west side of the street will be relocated to the east side.

While there will be no reduction in the total number of spaces, you may be impacted by the relocation of all the spaces to the east side.

CONSTRUCTION START

Construction is expected to begin the week of July 25 and will last for approximately 2 months.

Activities will include work on traffic signals, curb ramp reconstruction, micro-resurfacing, pavement markings, flexposts and signage. Micro-resurfacing will take place at night to avoid disruptions to traffic and parking. Concrete pouring, marking and other work will take place during the day.

Impacts to County Services

Montgomery County strives to minimize the impact construction will have on residents, businesses and motorists.

Staging areas will be established to store materials and equipment within the County right-of-way. All vehicles parked in the right-of-way will need to be moved.

In order to minimize inconveniences to the public, lane closures will be kept to a minimum and allowed only from 9:00 a.m. to 3:30 p.m. and 7:00 p.m. to 7:00 a.m. Driveways and entrances will remain accessible at all times during construction. Please use caution when traveling through the work zone.

Construction noise will be limited to engine sounds and backing vehicle warning devices.

Keeping Informed

This newsletter is sent to residents who are on the project mailing list and to the owners of businesses in the vicinity. Please share this information with your neighbors.

Signs and message boards posted near the project site will keep you informed of changes to the traffic patterns and guide you safely through the work zone.
