## Design Considerations

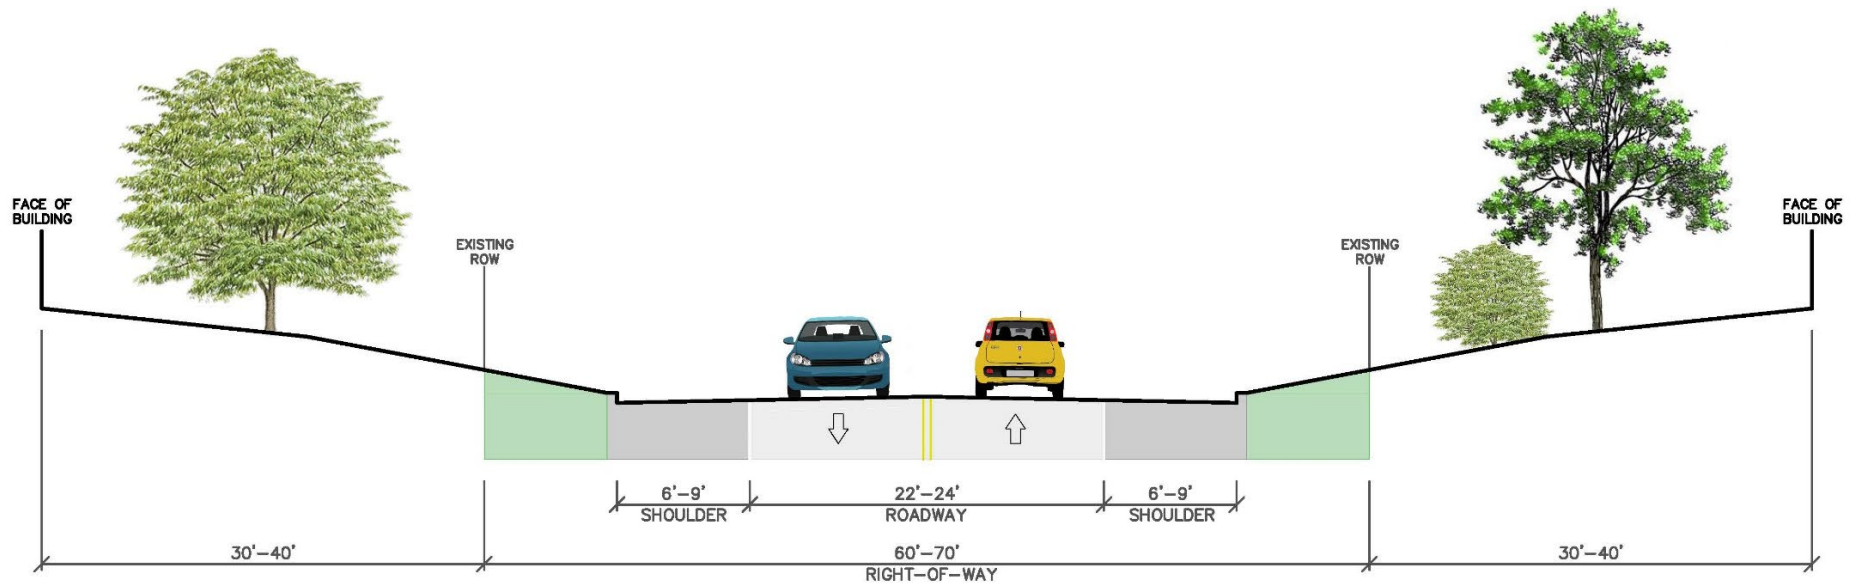

- Provide a safe pedestrian facility and crossings
- Connectivity to existing trails and sidewalks
- Minimize impacts
  - Residential frontage
  - Environmental resources
  - Utilities
- Maintain existing neighborhood aesthetics
- Ensure a permittable project
- Provide proper drainage and stormwater management
- Consider existing bus/school bus stop locations

# Frequently Asked Questions (FAQ's)

- I have some comments about the short-term improvements and traffic-related issues. Who should I talk to?
- How will this change / modify the improvements recently installed (short-term improvements)?
- Are you taking away all of the parking spaces on Dale Drive?
- Are you going to fix the drainage issues on Dale Drive?
- Can you install stop signs on Dale Drive? How about speed bumps?
- Are you cutting down any trees? What about the landscaping in front of my house?
- I have some comments and suggestions about the long-term improvements on Dale Drive. How do I make sure that my voice is heard?
