Engineering Services Chief

**Daniel Sheridan, P.E.**  
Design Section Chief

**Marcelo Cortez, P.E.**  
Construction Section Chief

**Eric Willis**  
Property Acquisition Section  
Chief

The Montgomery County Department of Transportation (MCDOT) invites you to attend a public workshop to learn about the Washington Grove Connector - Crabbs Branch Extension Project. This project will explore two separate opportunities to improve connectivity between the Town of Washington Grove, Shady Grove Metro, and neighborhoods and businesses along Shady Grove Rd and Crabbs Branch Way. The first project will explore the feasibility of creating a roadway and bikeway connection between Crabbs Branch Way and Amity Drive and is only funded for design. The second project will explore the feasibility of creating a bikeway-only connection between Crabbs Branch Way and the Town of Washington Grove and is funded for both design and construction.

At this public workshop, the project team will present an overview of the Washington Grove Connector - Crabbs Branch Extension Project, collect feedback from the community, discuss concerns, and answer any questions from the public regarding this project. We encourage you to attend, share your input on where you would like to see bikeway connections, and provide any suggestions that may better reflect your community's needs. Comments and feedback can also be shared after the public workshop and throughout the project. Should you have questions or comments regarding this project at any point, please contact the project manager.

If you cannot attend the meeting in person, the presentation will be live streamed using this link:
