FACTS about the new law that allows Montgomery County to bill insurance companies for ambulance transports:

1. County residents who call for an ambulance will **NOT BE CHARGED** – ever. Residents will never receive a bill or pay a fee, co-pay or deductible.
2. Billing insurers will add \$18 million every year to the County's Fire & Rescue budget to buy **NEW** ambulances and fire trucks, add more firefighters and paramedics and reduce emergency response times.
3. The cost of ambulance service is charged to insurance companies. **WHATEVER THEY PAY** is considered payment in full
4. For County residents without insurance, ambulance service is **COVERED** because they are taxpayers.
