## 2001 Annual Report

Dear Fellow Citizens:

The following is a report presented to you by the Montgomery County Ethics Commission as required by Chapter 19A-6(f) of the Montgomery County Code. This section requires the Ethics Commission to publish an annual report summarizing the actions it has taken during the preceding calendar year.

In 2001, the Commission held seven meetings to review and consider requests for advisory opinions, waivers, approvals for outside employment and complaints. In April, the leadership of the Commission was reconfirmed by unanimous consent to extend the Chairmanship of Walter A. Scheiber and the Vice Chairmanship of Elizabeth K. Kellar. The second and final full term of Commissioner Lee Petty expired and Commissioner Jerome Joseph was installed at the February meeting after being appointed by the County Executive and confirmed by the County Council.

During the year, the Commission issued one advisory opinion; granted one waiver; resolved one complaint and dismissed one complaint; initiated one investigation; reviewed and decided 1135 requests for outside employment approval; reviewed and reported on 150 lobbyist reports; and processed 1360 financial disclosure statements.

After several years of work, the Commission proposed and the County Council amended and approved new legislation to limit the political activities of members of quasi-judicial boards and commissions. Bill 11-01 was introduced and enacted, amending the Ethics law by the addition of Section 19A-16A.

The Commission proposed, and the County Council approved, amendments to the Rules and Regulations for Outside Employment in the past year, lifting the sunset provisions on Policies 4.5.1 and 4.5.2 regarding the use of equipment and uniforms by the police in outside employment.

On the initiative of the County Council, Bill 30-00 was enacted which required an amendment to Section 19A-17 of the Ethics law requiring members of certain boards, committees and commissions to file a limited supplemental financial disclosure statement under certain circumstances. This amendment required the creation of a new regulation #33-01 that establishes the information that must be provided on a Limited Public Financial Disclosure Statement.

To improve access to Ethics Commission information, the Commission added more content to web site ([www.emontgomery.org/ethics](http://www.emontgomery.org/ethics)). Annual Reports for the last four years are now posted as well as the Commission's Rules and Regulations for Outside Employment. This year the Commission inaugurated the electronic filing of financial disclosure statements. With nearly 90% participation by the more than 1300 persons required to file, Electronic filing has been well accepted. More upgrades are planned in the coming year.

As always, the Commission seeks opportunities to promote high ethical standards and to respond to issues that concern citizens.

Sincerely,

Elizabeth K. Kellar  
Chair

## INTRODUCTION

### Chapter 19A-5, and 19A-6

The Montgomery County Ethics Commission is composed of five members who are appointed by the County Executive and confirmed by the County Council. Each member must reside and be registered to vote in the County. No more than three members may be registered in the same political party.

The Commission is mandated by the County Executive and County Council to:

- (1) act on complaints of violations filed with the Commission;
- (2) respond to waiver requests;
- (3) act on outside employment approval requests;
- (4) render advisory opinions;
- (5) prepare and distribute financial disclosure forms and lobbying disclosure forms; and
- (6) maintain, as official custodian, forms and records filed under the County Public Ethics Law, Chapter 19A of the County Code.

During their terms of office, members must not: (1) hold or be a candidate for any state, County or local elected or appointed office; (2) be an employee of the state; political subdivision of the state; or a public body created by the state or a (4) participate in any state, County, or local political campaign; (5) participate in support of or opposition to any questions placed on the ballot by state, County, or local government, except a question that directly affects the Commission; or (6) be a lobbyist.

Commissioners serve four-year terms. The terms of no more than two members may expire in any one-year. A member serves until a successor is appointed unless the member resigns before the appointment of a successor. A vacancy must be filled on for the remainder of the unexpired term. The Chair is elected annually.

Commission members are Elizabeth K. Kellar (D), elected chairman in April; Steven A. Shaw (R), elected vice chair in April; Jerome Joseph (R); appointed in February; Robert N. Rebeck (D) Walter A. Scheiber (D).

In performing its duties, the Commission may: conduct investigations; authorize the issuance of summons and subpoenas, and administer oaths and affirmations; impose sanctions; adopt regulations; extend deadlines for distributing and filing forms; conduct public education and information programs; public opinions; establish procedures; interpret the Ethics law and advise persons on its application; and take all other steps necessary to carry out the purposes of the Ethics Law.

A person affected by a final decision of the Commission on a complaint, request for waiver, or request for other employment approval may ask the Commission for a rehearing or reconsideration. This request must be filed in writing within 30 days after the issuance of the Commission's final decision and stays the time in which an appeal to the Circuit Court may be filed until the Commission takes final action on the request.

A final decision of the Commission on a complaint, request for waiver, or request for approval of "other employment" may be appealed to the Circuit Court under the applicable Maryland Rules of Procedure governing administrative appeals. An appeal does not stay the effect of the Commission's decision unless the Court orders a stay.

The Commission meets monthly, as necessary, to conduct its business. In 2001, the Commission held seven meetings. Meeting schedules and agendas are posted in front of the Commission's office.

The Commission's meetings, deliberations and decisions are subject to both the Maryland Open Meeting Act and the Montgomery County Public Ethics Law. Meetings are conducted in open session when required by the Open Meetings Act and in closed session when required by the Ethics Law.

In an effort to conduct its business as publicly as possible, the Commission adopted an Open Meetings Policy. At the discretion of the Commission, the public may pose questions and offer comments at open sessions. Matters normally discussed in open sessions include revisions or amendments to Commission policies, regulations and the Ethics Law, and other matters not confidential by law.

During closed sessions, the Commission typically reviews and decides requests for opinions, waivers, and other employment approval. The Commission also reviews and acts on complaints regarding possible ethics violations in closed session.

## **INQUIRIES**

In addition to formal communications to the Commission itself, Commission staff receives many informal questions concerning points of law, requests for information and help in completing other employment, financial disclosure and lobbying forms. Informal requests are not documented or included in this report.

## ADVISORY OPINIONS

### Chapter 19A-7

Advisory opinions are issued by the Ethics Commission pursuant to Section 19A-7 of the Ethics Law. Any person subject to the Ethics Law, the Code of Ethics for members and employees of the County Board of Appeals<sup>1</sup>, or the illegal gifts and kickback and public employment provisions of the County Procurement Law<sup>2</sup> may ask the Commission for an advisory opinion on the meaning or application of those provisions. A supervisor or department head also may request an advisory opinion about the application of any of those laws to the employment-related conduct of any public employee they supervise.

The Commission is required by law to keep the names of the requestor and the subject of an advisory opinion confidential prior to and after the issuance of an opinion, unless the subject of the opinion requests or permits disclosure. In some cases, protecting the identity of the subject is not possible, for example, when the situation described in the opinion is unique, or the media has reported the issues involved. Whenever possible, the Ethics Commission drafts its opinions so that deletions to protect identities are unnecessary. Otherwise, opinions may be published with identifying information redacted. If the Commission finds that the privacy interest of a public employee or other person clearly outweighs the public's need not be informed about Commission actions, the Commission may publish a list of opinions that have not been published with an explanation stating the reason why each was not published.

In 2001, the Commission issued one advisory opinion.

---

<sup>1</sup> §2-109 of the Montgomery County Code.

<sup>2</sup> §§11B-51 and 11-B-52 (a) of the County Code.

## **WAIVERS**

### **Chapter 19A-8**

After receiving a written request, the Commission may grant a public employee or a class of public employees a waiver of the prohibitions of the Ethics Law and Sections 11B-51 and 11B-52(a) of the Procurement Law if, in the opinion of the Commission, certain statutory standards are met. The Commission may impose conditions appropriate to fulfill the purposes of Chapter 19A when it grants a waiver.

The Commission must publicly disclose every waiver. If a request for a waiver is denied, the Commission may publish its response as an advisory opinion. The identity of any public employee who applies for a waiver is confidential unless and until the waiver is granted. If the waiver is denied, the Commission may reveal the identity of the public employee who requested the waiver only if the employee authorizes public disclosure or the Commission has cause to believe that the employee has engaged in the Conduct for which the waiver was sought.

In 2001, the Commission granted one waiver.

## INVESTIGATIONS

### Chapter 19A-9

Under Section 19A-9 of the Ethics Law, the Commission may investigate, on its own initiative, any matter the Commission believes may constitute a violation of the Ethics Law or of any of those related provisions of the Board of Appeals or Procurement laws that the Commission enforces, if the Commission finds in writing that an investigation is necessary to resolve the matter.<sup>1</sup> The Commission may authorize its staff, the County Attorney, special counsel or another person retained by the Commission to conduct the investigation. The Commission must not actively participate in any investigations.

An investigator acts under the authority of the Commission and may require any person to:

- (1) respond under oath to written questions within 30 days;
- (2) produce verified copies of records within 30 days; and
- (3) on 15 days notice, attend a deposition to answer the investigator's questions under oath.

The investigator must disclose to the person from whom information is sought the general nature and purpose of the inquiry. If the person refuses to cooperate with investigation, the investigator may seek a court order compelling compliance.

All investigations are conducted confidentially. The investigator must give the Commission a confidential written report of the factual findings, sources of information and the identify of each person providing information. The Commission may file, on its own motion, a complaint based on a report received from an investigator, if the complaint is filed within the time limits established by law.

---

<sup>1</sup> §§ 2-109, 11B-51, and 11B-52(a) of the County Code.

The following data concerning the Commission's investigation activities are:

Number of investigations pending from 2000	1
Number of investigations initiated in 2001	1
Number of investigations completed in 2001	2
Number of investigations pending from 2001	1

## **COMPLAINTS**

### **Chapter 19A-10**

Any individual may file a confidential written complaint with the Commission. A complaint must allege facts under oath that would support a reasonable conclusion that a violation occurred. The complaint must be filed within the later of two years after: (1) the alleged violation or (2) the date when the complainant learned of facts that would indicate a violation occurred. Based on the facts provided by the complainant, the Commission may request Commission staff, the County Attorney, special counsel or any other person to conduct an investigation.

If, in the Commission's opinion, the complaint does not allege facts sufficient to state a violation, the Commission may dismiss the complaint. When a complaint is dismissed, the Ethics Law requires that the Commission inform the subject of the complaint that the complaint was filed and dismissed, but prohibits the Commission from disclosing the identity of the complainant.

If, based on a complaint and an investigative report, the Commission finds reasonable cause to believe that a violation has occurred, the Commission must hold an adjudicatory hearing or dispose of the matter by consent order.

In 2001, the Commission received one complaint. Of the two complaints one was dismissed and the other was resolved by Consent Order.

## ADJUDICATORY HEARINGS

### Chapter 19A-10

If the Commission holds an adjudicatory hearing, the Commission must:

- (1) give the subject of the complaint a copy of the complaint, including the identity of the complaint; and
- (2) give the subject of the complaint copies of those portions of approved minutes of the Commission relating to the complaint, and any report to the Commission issued by the investigator.

The Commission may:

- (1) issue summonses and subpoenas to compel attendance at a hearing;
- (2) require any person to produce records at a hearing; and
- (3) administer oaths or affirmations to witness.

The subject of the complaint and the County are the parties to the hearing. Each party may be represented by counsel and may present evidence and cross-examine witnesses. The prosecutor may be an attorney in the County Attorney's office, or a special counsel. The Commission may admit and give appropriate weight to evidence, including hearsay that possesses probative value commonly accepted by reasonable and prudent persons.

Hearings are closed to the public, unless the subject of the complaint requests that it be open.

The Commission must make written findings of fact and conclusions of law based on the record made at the hearing. If the Commission finds that no violation occurred, the Commission must dismiss the complaint.

If the Commission dismisses a complaint without holding a hearing, the Commission may not release to the public the identity of the subject of the complaint, the complaint, or any witness.

If, however, the Commission finds that a violation has occurred, the complainant and the subject of the complaint must be promptly notified of the Commission's findings and conclusions and the disposition of the complaint. The Commission must publicly disclose its findings and conclusions, including the identity of the subject of the complaint, the complainant and the witnesses.

If the Commission finds a violation, the Commission may:

- (1) seek injunctive relief;
- (2) proceed against the violator for a class A violation under the County Code;
- (3) seek an appropriate civil recovery;
- (4) seek the imposition of disciplinary action, including termination of employment, suspension of compensation or other disciplinary action;
- (5) order the subject of the complaint to stop any violation; and
- (6) issue a public or private reprimand.

The Commission may also refer to an appropriate prosecuting attorney any information indicating that a criminal offense may have occurred.

No hearings were held in 2001.

## **LOBBYING**

### **Chapter 19A-21**

Any individual or organization must register as a lobbyist under the Ethics Law if during the year that individual or organization:

Spends more than \$500 or receives more than \$500 to communicate with a public employee to influence legislative by a County agency; or  
Spends more than \$500 on meals, beverages, transportation, lodging, services, special events or gifts to influence executive or administrative action by a County agency.

In 2001, 93 lobbyist registered with the Ethics Commission and filed 150 lobbyist activity reports. Lobbyists contain a list of those who registered and those who filed lobbyist reports.

## **OUTSIDE EMPLOYMENT**

### **Chapter 19A-12**

The Ethics Law prohibits a public employee from engaging in any other employment unless the employment is approved by the Commission. The Commission may impose conditions on its approval of other employment and may adopt appropriate procedures to receive and decide these requests. The procedures and policies for obtaining outside employment approval are contained in Executive Regulations 32-97. A request for approval of outside employment is confidential until the commission takes action on the request.

In addition to the requirement for Commission approval of other employment generally, an employee must not be employed by, or own more than one percent of, any business that is regulated by the County agency with which the employee is affiliated; or negotiates or contracts with the County agency with which the employee is affiliated. In addition, an employee must not hold any employment relationship that would impair the impartiality and independence of judgment of the employee, unless the Commission grants a waiver.

The Commission received 1135 requests for outside employment approval in 2001. Outside Employment Requests is a listing of all approved requests.

## FINANCIAL DISCLOSURE STATEMENTS

### Chapter 19A-17, and 19A-18

Certain county employees and volunteers are required to file financial disclosure statements. The Ethics Law and a supplemental Executive Regulation specify who must file and whether their disclosure is public or confidential. The forms are identical; however, the public forms may be viewed by the general public and confidential forms may be reviewed only by authorized government personnel.

As of the date of this Report, the following persons must file a public financial disclosure statement:

- County
- Executive Council members
- Chief Administrative Officer and Deputy Chief Administrative Officer
- Special Assistants to the County Executive
- Director and deputy director of each department, principal office, and office in the County government
- Members of the County Board of Appeals
- Members of the Ethics Commission
- Members of the Merit System Protection Board
- Persons appointed to serve in an acting capacity in positions listed above
- Persons designated by the County Executive under Method 2
- Persons designated by the County Council

The following persons must file a confidential financial disclosure form:

- Asst. Chief Administrative Officers
- Attorneys in the Office of the County Attorney
- Hearing Examiners
- Members of the Fire and Rescue Commission
- Paid members of boards, commissions, and committees
- Members of the Board of License Commissioners
- Members of the Revenue Authority
- Housing Opportunities Commission
- Non-merit public employees paid above minimum of pay grade 20
- Any executive branch public employee whom the County Executive Designates under method 2<sup>1</sup>
- Any legislative branch public employee designated by the County Council.

---

<sup>1</sup> An Executive Regulation is currently being prepared to update the positions to which these requirements apply.

Each public employee required to file an annual financial disclosure statement must also file a statement (1) within 15 days after the employee begins employment in a position required to file; and (2) before the employee terminates his employment with the County and is in a position required to file. A final paycheck will not be issued until the employee has filed the required financial disclosure statement.

In 2001, 1360 persons filed FY00 Financial Disclosure Statements with the Ethics Commission. 83 persons filed Public Financial Statements and 1257 persons filed Confidential Financial Disclosures.

# **MONTGOMERY COUNTY ETHICS COMMISSION**

## **WAIVER DECISION**

The former Chief of the Retail Operations Division of the Department of Liquor Control (“the Requester”) has requested a waiver of Section 19A-13 of the Montgomery County Code, which prohibits former public employees who are subject to the Montgomery County Public Ethics Law from accepting post-county employment under certain circumstances. In particular, the Requester desires a waiver so that he may seek employment with a liquor/wine industry producer or supplier. The request is supported by a letter from the Department of Liquor Control’s Acting Director.

### **Pertinent Facts**

Based on the requester, the supporting letter, and a Summary Position Description form, the pertinent facts are as follows:

1. The Requester, who is 55 years old, has been in the beverage alcohol business for 30 years, and has been employed by the Montgomery County Department of Liquor Control for approximately the past twenty-one years. Until recently, he was employed as the Chief of the Retail Operations Division of the Department.
2. The Summary Position Description form describes the primary purpose of the Requester’s position as follows:

This is a professional management position with the primary purpose of the developing and maintaining programs of the Department of Liquor Control (DLC) that direct the activities of the retail division. Those activities include the utilization of financial, capital, and human resources; policy formulation and implementation; strategic business planning; providing general assistance to the Director in planning, organizing, and coordinating the various programs and activities of the Department; selecting and managing the Department's product portfolio; and providing for the proper management of the daily operations of both County and contractor-operated retail stores.

3. As a result of a reorganization, the Requester's position as Chief of the Retail Operation Division has been abolished, effectively July 1, 2001, and the Requester has elected to take a discontinued service retirement.
4. As of March 5, 2001, the Requester "ceased making any decisions regarding companies and products purchased by the department and ... turn over [his] responsibilities to ... the new Chief, Operation sDivision." Until July 1, 2001, the Requester occupies "an advisory status to answer any question from those assuming [his former] duties and responsibilities."
5. The beverage alcohol industry represents the Requester's best chance for gainful employment commensurate with his age and experience.
6. The County Government has a monopoly in the sale of beverage alcohol in the County. Under current law, the County's Department of Liquor Control is the only entity to which a producer or supplier may sell beverage alcohol products in the County.
7. As the chief of the Retail Operations Division, the Requester has had substantial responsibility for the purchase of all beverage alcohol during his tenure as Chief of the Retail Operations Division.
8. It would be virtually impossible, therefore, for the Requester to work in the wine/liquor business without being employed by a company from which the Montgomery County Department of Liquor Control has purchased beverage alcohol during his tenure as Chief of the Retail Operations Division.

9. To exclude the Requester from employment by any company that has done business with the Department of Liquor control during the Requester's tenure as Chief of the Retail Operations Division would effectively ban him from employment in the beverage alcohol business.
10. The Acting Director of the Department "forsee[s] no conflict of interest for Montgomery County if [the Requester] is allowed to gain employment in this industry."

### **Applicable Law**

This request implicates Section 19A-13 (Employment of former public employees) and 19A-8 (Waivers) of the Montgomery County Public Ethics Law. It is also may implicate Section 19A-15(a) (Disclosure of confidential information).

Section 19A-13 provides:

- (a) A former public employee must not accept employment or assist any party, other than a County agency, in a case, contract, or other specific matter for 10 years after the last date the employee significantly participated in the matter as a public employee.
- (b) For one year after the effective date of termination from the County employment, a former public employee must not enter into any employment understanding or arrangement (express, implied, or tacit) with any person or business that contracts with a County agency if the public employee:

- (1) significantly participated in regulating the person or business; or
  - (2) had official responsibility concerning a contract with the person or business (except a non-discretionary contract with a regulated public utility).
- (c) Significant participation means direct administrative or operating authority to approve, disapprove, or otherwise decide government action with respect to a specific matter, whether the authority is intermediate or final, exercisable alone or with others, and exercised personally or through subordinates. It ordinarily does not include program or legislative oversight, or budget preparation, review or adoption.

Section 19A-8 provides, in pertinent part:

- (c) After receiving a written request, the Commission may waive the prohibitions of Section 19A-13 if it finds that:
- (1) failing to grant the waiver may reduce the ability of the County to hire or retain highly qualified public employees; or
  - (2) the proposed employment is not likely to create an actual conflict of interest.
- (d) The Commission may impose appropriate conditions to fulfill the purposes of this Chapter when it grants a waiver.
- (e) The Commission must disclose to the public any waiver that it grants...
- (f) The Commission must include the pertinent facts in each waiver.

Section 19A-15 (a) provides, in pertinent part:

Except when authorized by law, a public employee or former public employee must not disclose confidential information relating to or maintained by a County agency that is not available to the public. A public employee or former public employee must not use confidential information for personal gain or the gain of another.

### **Decision**

1. Based on the pertinent facts as set forth in the request and the Acting Director's letter of support, the Montgomery County Ethics Commission has concluded that the proposed employment is not likely to

create an actual conflict of interest, and that failing to grant the waiver may reduce the ability of the County to hire or retain public employees who are highly qualified for this kind of work. The Commission, therefore, under the facts of this case, waives the prohibitions of Sections 19A-13 as requested, so as to permit the Requester to enter into post-County employment with a liquor/wine industry producer or supplier.

2. The Commission cautions, however, that the Requester has not sought and the Commission has not granted a waiver of the prohibitions of 19A-15(a) regarding “confidential information relating to or maintained by a County agency that is not available to the public.” Indeed, neither the request nor the supporting letter specifically addresses 19A-15(a) or indicates whether the Requester possesses such information. Therefore, although the Requester asserts that he is not, by reason of his County experience, “in a position to benefit” potential employers in the industry, the Commission notes that it has not waived the prohibitions of Section 19A-15(a), and the Requester continues to be bound thereby—unless and until he seeks and receives a waiver of those particular prohibition.
3. This waiver decision shall be disclosed to the public as required by law.

FOR THE COMMISSION:

---

Walter A. Schieber, Chair

April 24, 2001

## ADVISORY OPINION

October 3, 2001

The director of a county agency requested permission to solicit sponsors to support an annual event relating to the work of that agency.

After considering the provisions of the Ethics Law, the Commission determined that Section 19A-16(b)(3) requires that approval for this fund raising activity be granted by the County Executive. This section specifically states that:

“...a public employee may solicit a gift:

(3) from any person, during official work hours, while identifiable as a public employee, or at a County agency, for the benefit of a County agency or a nonprofit organization formally cooperating on a program with a County agency if the solicitation is authorized by the County Executive or (for public employees of the legislative branch) the President of the Council in an order printed in the County Register that designates:

- (A) the public employee authorized to solicit the gift;
- (B) the purpose for which the gift is sought;
- (C) the manner in which the gift may be solicited;
- (D) the persons or class of persons from whom gifts may be solicited; and
- (E) the type of gifts that may be solicited.”

Although the Ethics Law provides guidelines by which this undertaking may be approved, the Commission requested that the County Executive include the following conditions in his order:

1. the prohibition of solicitations from any entities with cases pending before this agency; and
2. the publication of a list of all gifts received by the agency in the County Register after the event has occurred.
