ULI Study Highlights & Recommendations

- “The success of White Oak will require extensive marketing, branding and community engagement efforts to attract businesses, residents and visitors to the area.” – ULI 2017
- Create an interagency working group to coordinate implementation of the White Oak Plan, private development and capital projects - **COMPLETED**
- Develop a “kit of parts” for streetscape and integrate into development and capital projects – **COMPLETED**
- Convene the “Friends of White Oak” group – **COMPLETED**
- Engage business and property owners on clean-up and appearance issues – **IN PROGRESS**
- Professional Plan Created - 2019

Fulfilling the Vision for White Oak

Montgomery County, MD
May 16-17, 2017

Background

The White Oak Science Gateway (WOSG) area has been identified for major development initiatives after nearly 20 years of development moratorium. Encouraging economic prosperity in the eastern portion of Montgomery County has been a key component of County Executive Isiah Leggett's administration. In 2009, the County purchased a 115-acre former composting facility known as Site 2 from the Washington Suburban Sanitary Commission (WSSC) for the express purpose of creating a "World Class BioLife Sciences, Education and Research Community." A Request for Proposals was issued for a public-private partnership, and in 2011 the County chose Percontee, Inc., owner of the adjacent 175-acre gravel operation, as its development partner. This partnership to redevelop nearly 300 acres of industrial uses into a mixed-use center with a focus on bio/life sciences will take place over the next 20-30 years; regulatory applications are expected to be submitted in 2017 with approvals by the end of 2018. Permitting and construction of the first phase will follow.

While the 300-acre project known as Viva White Oak is poised to transform the WOSG, new development and redevelopment in the area is not limited only to this project. A new master plan was approved in 2014 covering nearly 3,000 acres, allowing mixed uses on other properties historically dominated by a single use. Construction has begun on Washington Adventist Hospital on a 50-acre site off of Cherry Hill Road; the hospital is estimated to open in early 2019. Smaller infill projects, both commercial and residential, have been taking place since the moratorium ended in 2002. Additionally, the Federal Research Center, which includes the campus of the U.S. Food and Drug Administration, is slated to consolidate thousands of employees to the WOSG in both new and consolidated jobs.

MONTGOMERY COUNTY STRATEGIC COMMUNICATIONS & MARKETING PLAN 2019

Submitted by Sharp & Company, Inc. April 12, 2019

Marketing Information

A BIOSCIENCE INNOVATION HUB

WHITE OAK, MARYLAND

Companies have a unique opportunity for research and discovery in the White Oak area of Montgomery County. With the vibrant innovation hub, the consolidated U.S. Food and Drug Administration and Washington Adventist Hospital as major flagships, White Oak is destined to become a world-class center of excellence.

"This is a great place in Montgomery County, right next to the FDA, White Oak Center, and now our new hospital. I can't wait to see what the next ten years bring."

— Terry Forde, President & CEO, Adventist Healthcare

THE FUTURE OF LIFE SCIENCES

INTRODUCING A VIBRANT INNOVATION HUB
White Oak is evolving into an exciting mixed-use Biotechnology and Science hub that will serve the U.S. and the globe with a world-class community to live, work and play. Right now, you have the opportunity to find your perfect built-to-suit office space, wet lab or other unique configuration in one of three distinct communities within White Oak:

- Life Sciences Village
- White Oak Center
- Hillandale

A TALENT CAPITAL
White Oak has a population of 40,000 people, with the residents' education level off the charts. A full 2/3 of residents hold a bachelor's degree or higher. This is a talented group of people that contribute to an active pipeline of the workforce for Montgomery County businesses. In addition, White Oak and the surrounding areas are known not just for its smart residents, but as a highly diverse community. The diversity helps to spur innovation, new ideas and creative thinking.

BUILD-TO-SUIT OPPORTUNITIES
For companies seeking the next great spot to grow your business—in the spot for BioHealth, science, health and technology arenas—there is no stronger option than White Oak. Explore the various built-to-suit opportunities with multiple acreage available, space for wet labs and offices, and access to VIP neighbors including the FDA and Washington Adventist Hospital. White Oak is an ideal destination for world-class companies. Explore the different communities as you consider your future in White Oak. The first permanent on-campus office and lab buildings projected to be ready for occupancy by 2022.

A GATEWAY TO SCIENCE AND TECHNOLOGY
The world-class White Oak is now in progress, building into a global innovation hub for research and development, entrepreneurship and a vibrant live learn-work-play community, along Route 29 and I-495 in Montgomery County.

The most educated talent pipeline available

Build-to-suit opportunities in office and wet lab space

A mixed-use walkable, 21st century community

Leading the world in research and development
