INTRODUCTION

Montgomery County Government is authorized by State law and/or County Charter to issue debt to finance capital projects. Consistent with County fiscal policy, the County issues debt to finance a major portion of the construction of long-term additions or improvements to the County's publicly-owned infrastructure. The County's budget and fiscal plan for these improvements is known as the Capital Improvements Program (CIP). Bonds are repaid to bondholders with a series of principal and interest payments over a period of years, known as debt service.

This booklet addresses the County's direct debt. Direct debt constitutes the direct obligations of the County that impact its taxpayers. Components of Montgomery County direct debt are its general obligation bonds, variable rate demand obligations, bond anticipation notes/commercial paper, long-term notes, and revenue bonds issued by the County. The components of direct debt to be included in this booklet are general obligation bonds, variable rate demand obligations notes and revenue bonds.

General Obligation Bonds

County general obligation bonds are secured by the full faith and credit, and unlimited taxing power of the County. Bonds are issued in serial maturities, maturing in 1 to 20 years, with five percent of the principal retired each year. This practice produces equal annual payments of principal over the life of the bond issue and declining annual payments of interest on the outstanding bonds. The Charter limits the term of any bond to 30 years.

Variable Rate Demand Obligations (VRDOs)

Variable rate demand obligations are debt instruments that represent borrowed funds that are payable on demand and accrue interest based on prevailing short-term money market rates. VRDOs are general obligations of the County and are, therefore, secured by the full faith and credit and unlimited taxing power of the County. The VRDOs will not mature in total until 2026; however, the County is required by the Note Order to make annual sinking fund payments to retire one-tenth of the notes each year beginning in 2017. The interest rate on the obligations, which re-sets daily, is established by the remarketing agents, and is payable on the first business day of each month. Other potential modes for the obligations include a weekly mode, a commercial paper mode, a term rate mode or a fixed rate mode. Subject to certain terms and conditions in the Note Order, the County may effect a change in mode with respect to the obligations. Pursuant to certain terms, the obligations are subject to optional tender and purchase on the demand of the owners.

In connection with these obligations, the County entered into a Standby Note Purchase Agreement on June 7, 2006 with Dexia Credit Local, acting through its New York Branch. Under the Agreement, Dexia is obligated to purchase, through the registrar and paying agent, obligations that are tendered by their owners and have not been remarketed by the remarketing agent. The Standby Note Purchase Agreement will expire on June 7, 2011. Any principal advances under the line of credit must be repaid in semi-annual installments over five years after the advance occurs. At various times throughout the fall of 2008, a limited number of VRDOs were tendered to the paying agent, US Bank, because the County's dealers were unable to remarket the obligations. Subsequent to the tender notices, all VRDOs were remarketed negating the need for the County to repay any advances. Because the County entered into a financing agreement that ensures the variable rate demand obligations can be refinanced on a long-term basis, at year-end these obligations are classified as non-current liabilities.

General obligation bond and variable rate demand obligation proceeds are distributed into different bond categories. The bond proceeds within each bond category must be used for the purposes of that bond

category. The bond categories are as follows: General County, Roads and Storm Drainage, Parks, Public Schools, Community College, Mass Transit, Consolidated Fire Tax District, and Public Housing.

Bond Anticipation Notes

The County utilizes Bond Anticipation Notes (BANS)/commercial paper for short-term capital financing of capital expenditures with the expectation that the principal amount will be refunded with the proceeds of long-term general obligation bonds. BANS/commercial paper is issued at varying maturities to a maximum of 270 days. The County reissues the notes upon maturity until they are refinanced with long-term general obligation bonds. Because the purpose of the program is to convert BANS to general obligation bonds, only the general obligation bond information is presented in this booklet.

Revenue Bonds

Revenue bonds are authorized by the County to finance specific revenue producing projects such as parking garages and solid waste facilities. Debt service is to be paid from pledged revenues received in connection with the projects. Proceeds from revenue bonds may be applied only to the cost of projects for which they are authorized. Revenue bonds are considered separate from general obligation debt, and do not constitute a pledge of the full faith and credit or unlimited taxing power of the County.

County revenue bonds are issued by the Parking Districts and are supported by parking fees and fines, together with parking district property taxes. Revenue bonds were also issued for the County's Solid Waste Management Division and the Department of Liquor Control. Debt service is paid for from the revenues of the Solid Waste Disposal System and liquor sales.

Detailed information on Montgomery County's direct debt may be found in the County's current Annual Information Statement, dated January 15, 2010, on the Montgomery County, Department of Finance Debt Management Program website (<http://bonds.montgomerycountymd.gov>).

Notes
* For bonds issued from 1987-1993 the rate shown is the Effective Interest Rate.
** According to the Official Statement dated March 31, 1993, Fitch Investors Service Inc. and Moody's Investors Service assigned the 1993 Series A Bonds ratings of A and A, respectively, and Standard & Poor's Corporation and Moody's assigned their municipal bond ratings of "AAA" and "Aaa", respectively to the 1993 Series A Bonds maturing in the years 2000 through 2006, inclusive, and 2013 (the "Insured 1993 Series A Bonds"), based upon an insurance policy provided by AMBAC Indemnity Corp. These bonds were refunded by the Solid Waste System Revenue Refunding Bonds dated April 3, 2003.
*** The Solid Waste Disposal System Refunding Revenue Bonds (2003 Series A) were not rated by Standard & Poor's Corporation. Moody's Investors Service and Fitch assigned their municipal bond ratings of "Aaa" (Aa3 Underlying) and "AAA" (AA Underlying), respectively, based upon an insurance policy provided by AMBAC Assurance Corporation.
