Montgomery County Fire and Rescue Service

LOSAP

Definition

The Montgomery County, Maryland, Fire and Rescue Service Length of Service Award Program (LOSAP) was enacted by County Council legislation on July 1, 1975 to recognize and reward those volunteer firefighters, rescuers, medical attendants, and administrative members who provided a sustained level of fire and rescue service to their Community. LOSAP offers financial benefits to volunteers through an accumulative point system and has proven to be a successful method for recruitment and retention of volunteers for the Local Fire and Rescue Departments.

Benefits

Death Benefit - A volunteer's surviving spouse or domestic partner (or estate if no spouse or partner survives), qualifies for a \$5000 death benefit if the volunteer has met either the years of service requirement for a length of service benefit, or the requirements for a disability benefit.

Survivor's Benefit - A volunteer's surviving spouse qualifies for a monthly award payment equal to 50 percent of the length of service benefit for which the volunteer met the minimum years of active service requirement, or 50 percent of the volunteer's disability benefit, until the spouse's death or remarriage, or the partner's death.

Eligibility

An "active" volunteer, as described in Montgomery County Code, Chapter 21; Section 21-21, dated March 2005, posted on the DOVs Quicklinks, "a local fire and rescue department volunteer who accumulates at least 50 points in a calendar year under the point system..."
