

# EMIHS 5-minute Lineup Drill

## The CPR Boss & Handtevy...

Handtevy is an app on the SONIM phones that allows the CPR boss to keep time and document with ease

There are other CPR apps out there... They don't do what Handtevy does.

Handtevy lets ***the CPR BOSS*** keep track of all aspects of the arrest

Handtevy improves documentation since all the information can be uploaded to eMeds

Montgomery County Fire & Res... ☰

12YR 50 KG Ideal Weight Stop CPR

15:2 Defibrillation

Ventilate in 1s Reset 01:27 Total 1 min

Continuous Epi (1) 01:00
