

# EMIHS 5-minute Lineup Drill

## The Definition of GOOD INTENT

**Writing "Good Intent" is indefensible & provides no information. Document what you did & found on scene. Document well!**

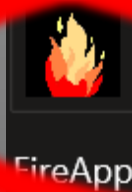

A well-intended 911 caller, *with limited information*, reported a suspected emergency, and upon arrival that situation was completely non-existent

...and the intended beneficiary is neither obviously injured or ill

and in fact is denying injury or illness,

or would not have otherwise called for our help

...and is not impaired, nor an unattended minor

**"GOOD INTENT"**
