

EMIHS 5-minute Lineup Drill

"MEDICATION ADDED" LABELS

For patient safety when adding medications to fluids

Use these labels when medications are added to fluids

This ensures everyone caring for the patient is aware of what the patient is receiving

Medications we add to fluids:

- *Amiodarone*
- *Diltiazem*
- *Epinephrine*
- *Magnesium Sulfate*
- *Sodium Bicarbonate*
- *Tranexamic Acid (TXA)*

Order from EMS

Logistics

USE EVERY TIME!
