

EMIHS 5-minute Lineup Drill

Time is of the Essence: Transfer of Patient Care

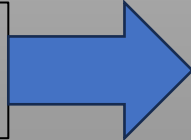

By the nurse signing, the clinician and the nurse are agreeing that the time stamp on the signature is the transfer of care time.

Type of Person Signing: Healthcare Provider

Signature Reason: Find a Value... Transfer of Patient Care

Date/Time of Signature: 07/12/2023 15:05:58

The nurses signature time **must EXACTLY** match the "Xfer of Care" time.

If it doesn't match, it will flag **RED** and will give you this error message:

Xfer of Care Complete: 07/12/2023 15:05:58

Transfer of Care Signature Time must match Transfer of Care time.

The signature time for Transfer of Care does not match your Transfer of Care time. Please adjust your Transfer of Care time, not the signature time. (Error: 3263)

Drivers: Status when you arrive at the designated ED parking area – not before!

Funding for the hospitals may be tied to their transfer of care times. It is vitally important that the data in your report is accurate!
