

Language List

This is a comprehensive list of all languages coded into our call platform. While we have voice-recognition software to connect you quickly to the correct language queue, we know some would prefer to enter codes during this step of the process. Simply enter the three-digit code below when asked by our IVR system to say the language you need.

Please note interpreter availability for some less-frequently-used languages may vary. If an interpreter for the language you requested is not currently available, your call will route to Client Services for further assistance. Increased requests for certain languages help us gauge demand and may influence future interpreter staffing changes.

264 Acholi (Sudan-Uganda)	013 Cape Verdean	395 Filipino	147 Hunanese
