Montgomery County Employee Retirement Plans

Deferred Compensation Plan
Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

There is no waiting period. You can enroll in the Plan at any time.

If you have not enrolled in the Plan within 60 days from your eligibility, you will be automatically enrolled in the Plan at a contribution rate of 1% of your pretax eligible earnings.

Based on your date of birth and assuming a retirement age of 65, you will be invested in the State Street Target Retirement Non-Lending Series Fund Class W, with a corresponding target retirement date. Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

We encourage you to take an active role in the Plan and to choose a contribution rate and investment options that are appropriate for you. If you do not wish to contribute to the Plan, you must change your contribution rate to 0% within the first 60 calendar days of your eligibility. You may change your contribution rate at any time online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

What is the Roth contribution option?

A Roth contribution to the Plan allows you to make after-tax contributions and receive any associated earnings tax free at distribution—as long as the distribution is a qualified one. A qualified distribution, is one that is taken at least five tax years after your first Roth contribution to this Plan and after you attained age 59½, or become disabled or die.

Through payroll deduction, you can contribute a set dollar amount from your eligible pay as Roth contributions, on an after-tax basis, up to the annual IRS contribution limit.

How much can I contribute?

Through payroll deduction, you can contribute a set dollar amount from your eligible pay on a pretax basis, up to the annual IRS contribution limit.

Participants are allowed to mix and match pre and post tax contributions.

What is the IRS contribution limit?

You may defer $20,500, the maximum IRS limit in 2022, which applies to all employee and employer contributions in all 457 plans in which you participate.

If you are age 50 and over, you can contribute an additional $6,500, which means you can contribute up to $27,000. If you turn age 50 during the calendar year, you can contribute the additional amount.

A participant may be eligible to utilize a “last 3 years” catch up during one or more of the last 3 years before normal retirement age (as defined in the retirement plan in which the participant participates). Eligibility depends upon any underutilized amount. Prior to completing the 3-year Catch-up Provision Form, please contact Fidelity’s onsite representative, at 240-777-8228 to discuss eligibility. If you are eligible for the 3-year Catch-Up, you may be able to contribute an
additional $20,500 for an annual contribution amount of up to $41,000.

**How do I designate my beneficiary?**
If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it’s time to consider your beneficiary designations. Fidelity’s Online Beneficiaries Service offers a straightforward, convenient process that takes just minutes. To make your elections, click on the “Profile” link, then select “Beneficiaries” and follow the online instructions.

**What are my investment options?**
To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan’s investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

**Is there a self-directed brokerage option in my plan?**
For those desiring the most investment flexibility and choice, the Plan offers Fidelity BrokerageLink®, a self-directed brokerage option, which provides you with the opportunity to select from thousands of investment options beyond those offered in the standard plan line up. A complete description of the Plan’s standard investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online at NetBenefits. Click on “Quick Links,” then select “Investment Performance and Research” and follow the online instructions.

Contact the Board of Investment Trustees at 240-777-8220 to receive the Fidelity BrokerageLink® forms.

**What if I don’t make an investment election?**
We encourage you to take an active role in the DCP and choose investment options that best suit your goals, time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the State Street Target Retirement Non-Lending Series Fund Class W with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of Montgomery County.

If no date of birth or an invalid date of birth is on file at Fidelity, your contributions may be invested in the State Street Target Retirement Income Non-Lending Series Fund Class W. More information about the State Street Target Retirement Non-Lending Series Fund Class W options can be found online.

Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

**When am I vested?**
You are always 100% vested in your contributions to the Plan.

**Can I take a loan from my account?**
Loans are not available in this Plan.

**Can I make withdrawals?**
Withdrawals from the Plan are generally permitted when you terminate your employment, have an unforeseeable emergency, or the Plan is terminated.

Learn more about and/or request a withdrawal online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.
Can I move money from another retirement plan into my account in DCP?

If you wish to move money from another retirement plan into your plan account, please complete the Transfer/Rollover form at the back of this brochure and return it to Fidelity Investments. For any questions on completing the Transfer/Rollover form, please contact the Fidelity Retirement Benefits Line at 1-800-343-0860 Monday through Friday from 8:30 a.m. to midnight Eastern time.

Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.

How do I update my mail preferences?

Receiving communication by email offers you greater convenience and will help keep you up to date on topics related to your retirement plan. Simply go online, click on access your account, login and go to “Your Profile” and click on “email address.” Enter your personal email address.

What kind of online retirement planning tools are available?

Fidelity offers a variety of retirement planning tools available conveniently at your desk. Once logged on to NetBenefits®, click on the "Tools & Resources" link on the main page, then click "eLearning catalog."

What other resources are available?

A full-time Workplace Financial Consultant, is located in the Executive Office Building (EOB) 101 Monroe Street, 15th floor. The Retirement Planner consultant is available to answer your questions and can be reached at 240-777-8228.

Fidelity offers (1-hour) one-on-one meetings to help answer your questions about the new fund lineup and tools available on Fidelity’s website. By attending one of these meetings, you will learn how you can obtain the maximum benefit from the Plan features and get answers to your retirement planning questions. To register for a one-on-one session with the Fidelity Retirement Planner, go to

www.montgomerycountymd.gov/mcerp/investment/education/sessions/one-on-one.html.

In addition, DCP participants can meet annually for a 2-hour one-on-one session with an independent counselor from National Planning Corporation (NPC). The NPC counselor can assist you with your retirement planning, asset allocation, investment selection and answer your questions about the fund lineup. The counselor will review your asset allocation and help you build an optimal portfolio to fit your specific circumstances. This session is intended to give you an in-depth understanding of your current financial situation. To register for a one-on-one session with the NPC counselor, go to

www.montgomerycountymd.gov/mcerp/investment/education/sessions/rsp-npc-sessions.html. National Planning Corporation and Fidelity Investments are independent entities and are not legally affiliated.
Investment Options

Here is a list of investment options for DCP. For up-to-date performance information and other fund specifics, go to www.netbenefits.com/mcg.

Target Date Funds

Placement of investment options within each risk spectrum is only in relation to the investment options within that specific spectrum. Placement does not reflect risk relative to the investment options shown in the other risk spectrums.

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment’s name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.
The chart below lists the assigned fund DCP believes will best fit your diversification needs should you not select an investment option.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity’s analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options’ Morningstar categories as of 01/31/2022. Morningstar categories are based on a fund’s style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options’ objectives and do not predict the investment options’ future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.
Fidelity BrokerageLink® gives you the opportunity to invest in an expanded range of investment choices to manage your plan. BrokerageLink includes investments beyond those in your plan’s standard lineup. You should compare investments and share classes that are available in your plan’s lineup with those available through BrokerageLink, and determine the available investment and share class that is appropriate for your situation. The plan fiduciary neither evaluates nor monitors the investments available through BrokerageLink. It is your responsibility to ensure that the investments you select are suitable for your situation, including your goals, time horizon, and risk tolerance. To enroll, and for more information about BrokerageLink, including the Plan’s BrokerageLink fact sheet, the brokerage commission schedule, and brochure, go to netbenefits.com and click on "Quick Links," then select "BrokerageLink."
Investment Options

Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

Managed Income Portfolio II Class 2

VRS Code: 000768

Fund Objective: The fund seeks to preserve your principal investment while earning a level of interest income that is consistent with principal preservation. The fund seeks to maintain a stable net asset value (NAV) of $1 per share, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate.

Fund Strategy: The fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions (“Contracts”), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements. Fidelity Management Trust Company, as investment manager and trustee of the Fidelity Group Trust for Employee Benefit Plans, has claimed an exemption from registration under the Commodity Exchange Act and is not subject to registration or regulation under the Act. At the time of purchase, all Contracts and securities purchased for the fund must satisfy the credit quality standards specified in the Declaration of Separate Fund

Fund Risk: The Contracts and securities purchased for the fund are backed solely by the financial resources of the issuers of such Contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the FDIC, or any other government agency. The Contracts purchased by the fund permit the fund to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the fund’s securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the fund under the Contracts. However, while the fund seeks to preserve your principal investment, it is possible to lose money by investing in this fund. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers’ promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund’s securities, which may be less than your book value balance.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to “compete” with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer’s promise to pay certain withdrawals and exchanges at book value.

Fund short term trading fees: None

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide stability of price.
Footnotes:

● The investment option is a stable value fund. It is managed by Fidelity Management Trust Company. This description is only intended to provide a brief overview of the fund.
● This fund is a commingled pool of the Fidelity Group Trust for Employee Benefit Plans. Only qualified, participant-directed, defined contribution plans may invest in the fund.
● This investment option is not mutual fund.
● On May 3, 1999, an initial offering of the Managed Income Portfolio II Class 2 took place. Returns and expenses prior to that date are those of the Managed Income Portfolio II Class 1. Had class 2 expenses been reflected in the returns shown, total returns would have been higher.
● Management Fee includes the costs associated with managing the investments in the pool. The management fee does not include the wrap contract fees, which are paid to third party wrap providers and do not result in any additional compensation to Fidelity. The wrap contract fees are not separately stated but are included in the Expense Ratio and do reduce returns.
● Expense Ratio (Gross) includes management and wrap contract fees. For certain investments, it may also include distribution fees. Please note that the Gross and Net Expense Ratio are the same for this investment.

Fidelity® Inflation-Protected Bond Index Fund

VRS Code: 002418

Fund Objective: Seeks to provide investment results that correspond to the total return of the inflation-protected sector of the United States Treasury market.

Fund Strategy: Normally investing at least 80% of assets in inflation-protected debt securities included in the Bloomberg Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L). Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund’s risk exposure.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Increases in real interest rates can cause the price of inflation-protected debt securities to decrease. Interest payments on inflation-protected debt securities can be unpredictable. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. The performance of the fund and its index may vary somewhat due to factors such as transaction costs, sample selection, and timing differences associated with additions to and deletions from its index.

Fund short term trading fees: None

Who may want to invest:

● Someone who is seeking potential returns primarily in the form of interest dividends and who can tolerate more frequent changes in the size of dividend distributions than those usually found with more conservative bond funds.
● Someone who is seeking to supplement his or her core fixed-income holdings with a bond investment that is tied to changes in inflation.

Footnotes:

● This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
● The Bloomberg U.S. TIPS Index is an unmanaged index designed to represent securities that protect against adverse inflation and provide a minimum level of real return. To be included in this index, bonds must have cash flows linked to an inflation index, be sovereign issues denominated in U.S. currency, and have more than one year to maturity, and, as a portion of the index, total a minimum amount outstanding of 100 million U.S. dollars.
**Fidelity® Total Bond K6 Fund**  
**VRS Code:** 002944  
**Fund Objective:** Seeks a high level of current income.  
**Fund Strategy:** Normally investing at least 80% of assets in debt securities of all types and repurchase agreements for those securities. Using the Bloomberg Barclays U.S. Universal Bond Index as a guide in allocating assets across the investment grade, high yield, and emerging market asset classes. Investing up to 20% of assets in lower quality debt. Managing the fund to have similar overall interest rate risk to the index. Investing in domestic and foreign issuers. Allocating assets across different asset classes, market sectors, and maturities. Analyzing the credit quality of the issuer, the issuer’s potential for success, the credit, currency, and economic risks of the security and its issuer, security-specific features, current and potential future valuation, and trading opportunities to select investments. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives such as swaps (interest rate, total return, and credit default), options, and futures contracts and forward-settling securities, to adjust the fund’s risk exposure. Investing in Fidelity’s central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).  
**Fund Risk:** In general, the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Lower-quality bonds can be more volatile and have greater risk of default than higher-quality bonds. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets. Leverage can increase market exposure and magnify investment risk.  
**Fund short term trading fees:** None  
**Who may want to invest:**  
- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.  
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.  

**Footnotes:**  
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.  
- The Bloomberg U.S. Universal Bond Index is an unmanaged market value-weighted performance benchmark for the U.S. dollar-denominated bond market, which includes investment-grade, high yield, and emerging market debt securities with maturities of one year or more.

---

**PIMCO High Yield Fund Institutional Class**  
**VRS Code:** 893596  
**Fund Objective:** The investment seeks maximum total return, consistent with preservation of capital and prudent investment management.  
**Fund Strategy:** The fund invests at least 80% of its assets in high yield investments (“junk bonds”), which may be represented by forwards or derivatives. It may invest up to 20% of its total assets in securities rated Caa or below by Moody’s, or equivalently rated by S&P or Fitch, or, if unrated, determined by PIMCO to be of comparable quality. The fund may invest, without limitation, in derivative instruments, such as options, futures contracts or swap agreements, or in mortgage- or asset-backed securities.  
**Fund Risk:** The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.  
**Fund short term trading fees:** None  
**Who may want to invest:**  
- Someone interested in a bond fund that provides the potential for both current income and share-price appreciation.  
- Someone who is seeking to complement his or her core bond holdings with a bond investment that seeks higher returns from riskier bonds, and who can tolerate higher risk.  

**Footnotes:**  
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
State Street U.S. Bond Index Non-Lending Series Fund Class K

VRS Code: 911353

Fund Objective: The Fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Bloomberg U.S. Aggregate Bond Index (the “Index”) over the long term.

Fund Strategy: The Fund is managed using an “indexing” investment approach, by which SSGA attempts to approximate, before expenses, the performance of the Index over the long term. The Fund will not necessarily own all of the securities included in the Index.

The Fund may attempt to invest in the securities comprising the Index, in the same proportions as they are represented in the Index. However, due to the diverse composition of securities in the Index and the fact that many of the securities comprising the Index may be unavailable for purchase, it may not be possible for the Fund to purchase some of the securities comprising the Index. In such a case, SSGA will select securities for the Fund comprising a portfolio that SSGA expects will provide a return comparable to that of the Index.

SSGA expects that it will typically seek to replicate Index returns for the Portfolio through investments in the “cash” markets - actual holdings of debt securities and other instruments - rather than through “notional” or “synthetic” positions achieved through the use of derivatives, such as futures contracts or swap transactions (except in the unusual case where SSGA believes that use of derivatives is necessary to achieve an exposure that is not readily available through the cash markets). The Fund’s return may not match the return of the Index.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- The Bloomberg U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 01/26/2016. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 02/02/2004, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool’s offering materials for information regarding its’ fees and expenses.

Fidelity® Strategic Real Return Fund - Class K6

VRS Code: 005020

Fund Objective: Seeks real return consistent with reasonable investment risk.

Fund Strategy: Allocating the fund’s assets among four general investment categories, using a neutral mix of approximately 30% inflation-protected debt securities, 25% floating-rate loans, 25% commodity-linked derivative instruments and related investments, and 20% REITs and other real estate related investments. Investing in domestic and foreign issuers. Analyzing a security’s structural features and current pricing, its issuer’s potential for success, and the credit, currency, and economic risks of the security and its issuer to select investments. Using fundamental analysis of factors such as each issuer’s financial condition and industry position, as well as market and economic conditions, to select investments. Investing in Fidelity’s central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).
**Fund Risk:** Stock markets, particularly foreign markets, are volatile and can be affected by adverse issuer, political, regulatory, market, or economic developments. Floating rate loans may not be fully collateralized and therefore may decline significantly in value. A floating rate loan may not be fully collateralized which may cause the loan to decline significantly in value. A floating rate loan is generally subject to restrictions on resale. Difficulty in selling a floating rate loan may result in a loss. Interest rate increases can cause the price of a debt security to decrease. Increases in real interest rates can cause the price of inflation-protected debt securities to decrease. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry. Lower-quality bonds can be more volatile and have greater risk of default than higher-quality bonds. Commodity-linked investments can be more volatile and less liquid than the underlying instruments or measures and their value may be affected by the performance of the overall commodities baskets as well as weather, tax, and other regulatory developments. Leverage can increase market exposure and magnify investment risks.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

**Footnotes:**
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- On October 8, 2019, an initial offering of the Fidelity Strategic Real Return Fund - Class K6 took place. Returns and expenses prior to that date are those of the Fidelity Strategic Real Return Fund. Had Fidelity Strategic Real Return Fund - Class K6 expenses been reflected in the returns shown, total returns would have been higher.
- Fidelity is voluntarily reimbursing a portion of the fund's expenses. If Fidelity had not, the returns would have been lower.

---

**ClearBridge Small Cap Growth Fund Class IS**

**VRS Code:** 826034

**Fund Objective:** The investment seeks long-term growth of capital.

**Fund Strategy:** The fund normally invests at least 80% of its assets in equity securities of companies with small market capitalizations and related investments. The portfolio managers use a growth-oriented investment style that emphasizes small U.S. companies.

**Fund Risk:** The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

**Footnotes:**
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/04/2008. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 07/01/1998, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher). Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
**Fidelity® Growth Company Commingled Pool**

**VRS Code:** 003716

**Fund Objective:** The portfolio's investment objective is to seek to provide capital appreciation over a market cycle relative to the Russell 3000 Growth Index through the active management of equities across a broad segment of the equity markets.

**Fund Strategy:** The portfolio's investment philosophy is to capitalize on the strength of Fidelity's internal research by selecting those stocks that are found to be attractive by Fidelity's proprietary fundamental research by investing in companies that the manager believes have above-average growth potential. The portfolio may invest in domestic and foreign issuers. Generally, the portfolio's universe includes common stocks with market capitalization consistent with the Russell 3000 Growth Index.

**Fund Risk:** The value of the fund's domestic and foreign investments will vary from day to day in response to many factors, such as adverse issuer, political, regulatory, market, or economic developments. Stock values fluctuate in response to the activities of individual companies, and general market and economic conditions. Foreign investments involve greater risks than those of U.S. investments, as well as exposure to currency fluctuations. 'Growth' stocks can perform differently from the market as a whole and other types of stocks and can be more volatile than other types of stocks. You may have a gain or loss when you sell your units.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

**Footnotes:**
- The Fidelity® Growth Company Commingled Pool is a collective investment trust maintained under the Fidelity Group Trust for Employee Benefit Plans, and is managed by Fidelity Management Trust Company (FMTC). It is not insured by the FDIC.
- This description is only intended to provide a brief overview of this investment option, which is available only to eligible retirement plans and is not offered to the general public.
- Russell 3000 Growth Index is a market-capitalization-weighted index designed to measure the performance of the broad growth segment of the U.S. equity market. It includes those Russell 3000 Index companies with higher price-to-book ratios and higher forecasted growth rates.
- This investment option is not a mutual fund.

---

**Fidelity® Low-Priced Stock K6 Fund**

**VRS Code:** 002955

**Fund Objective:** Seeks capital appreciation.

**Fund Strategy:** Normally investing primarily in common stocks. Normally investing at least 80% of assets in low-priced stocks (those priced at or below $35 per share or with an earnings yield at or above the median for the Russell 2000 Index), which can lead to investments in small and medium-sized companies. Earnings yield represents a stock's earnings per share for the most recent 12-months divided by current price per share. Potentially investing in stocks not considered low-priced. Investing in domestic and foreign issuers. Investing in either “growth” stocks or “value” stocks or both. Using fundamental analysis of factors such as each issuer’s financial condition and industry position, as well as market and economic conditions, to select investments.

**Fund Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The value of securities of smaller issuers can be more volatile than that of larger issuers.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

**Footnotes:**
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
- The Russell 2000® Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.
State Street Russell Small/Mid Cap® Index Non-Lending Series Fund Class K

**Fund Objective:** The State Street Russell Small/Mid Cap® Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell Small Cap 600® Index (the "Index") over the long term.

**Fund Strategy:** The Fund is managed using an "indexing" investment approach, by which SSGA attempts to approximate, before expenses, the performance of the Index over the long term. SSGA will typically attempt to invest in the equity securities comprising the Index, in approximately the same proportions as they are represented in the Index. Equity securities may include common stocks, preferred stocks, depository receipts, or other securities convertible into common stock. The Fund may purchase securities in their initial public offerings ("IPOs"). In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSGA may employ a sampling or optimization technique to construct the portfolio in question.

From time to time securities are added to or removed from the Index. SSGA may sell securities that are represented in the Index, or purchase securities that are not yet represented in the Index, prior to or after their removal or addition to the Index. The Fund may at times purchase or sell index futures contracts, or options on those futures, or engage in other transactions involving the use of derivatives, in lieu of investment directly in the securities making up the Index or to enhance the Fund's replication of the Index return. The Fund's return may not match the return of the Index.

**Fund Risk:** Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.
State Street S&P 500® Index Non-Lending Series Fund Class K

VRS Code: 911352

**Fund Objective:** The State Street S&P 500® Index Fund (the “Fund”) seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500® (the “Index”) over the long term.

**Fund Strategy:** The Fund is managed using an “indexing” investment approach, by which SSGA attempts to approximate, before expenses, the performance of the Index over the long term. SSGA will typically attempt to invest in the equity securities comprising the Index, in approximately the same proportions as they are represented in the Index. Equity securities may include common stocks, preferred stocks, depositary receipts, or other securities convertible into common stock. The Fund may purchase securities in their initial public offerings (“IPOs”). In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSGA may employ a sampling or optimization technique to construct the portfolio in question. From time to time securities are added to or removed from the Index. SSGA may sell securities that are represented in the Index, or purchase securities that are not yet represented in the Index, prior to or after their removal or addition to the Index.

**Fund Risk:** Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

**Footnotes:**
- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 06/25/2012. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 06/25/2012, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool’s offering materials for information regarding its’ fees and expenses.
The Hartford Dividend and Growth Fund Class R6
VRS Code: 838916

**Fund Objective:** The investment seeks a high level of current income consistent with growth of capital.

**Fund Strategy:** The fund invests primarily in a portfolio of equity securities that typically have above average dividend yields and whose prospects for capital appreciation are considered favorable by the sub-adviser. Under normal market and economic conditions, at least 80% of its net assets are invested in dividend paying equity securities. The fund may invest up to 20% of its net assets in securities of foreign issuers and non-dollar securities.

**Fund Risk:** Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

**Footnotes:**
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception date of 07/22/1996, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher.) Please refer to a fund’s prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Harbor International Fund Retirement Class
VRS Code: 835567

**Fund Objective:** The investment seeks long-term total return, principally from growth of capital.

**Fund Strategy:** The fund invests primarily (no less than 65% of its total assets under normal market conditions) in common and preferred stocks of foreign companies located principally in developed markets across Europe, Japan and Asia Pacific ex Japan. The Subadviser’s investment strategy focuses on identifying attractive long-term investment opportunities that can arise as a result of certain capital cycle, or supply-side, conditions.

**Fund Risk:** Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

**Footnotes:**
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 11/07/2014. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 07/22/1996, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher.) Please refer to a fund’s prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
Invesco Global Fund Class R6
VRS Code: 889659
Fund Objective: The investment seeks capital appreciation.
Fund Strategy: The fund invests mainly in common stock of U.S. and foreign companies. It can invest without limit in foreign securities and can invest in any country, including countries with developing or emerging markets. However, the fund currently emphasizes its investments in developed markets such as the United States, Western European countries and Japan. It does not limit its investments to companies in a particular capitalization range, but primarily invests in mid- and large-cap companies. The fund normally will invest in at least three countries (one of which may be the United States).
Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.
Fund short term trading fees: None
Who may want to invest:
• Someone who is seeking an investment that invests in both domestic and international markets.
• Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and the generally higher degree of risk associated with international investments.
Footnotes:
• This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
• The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 01/27/2012. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 12/22/1969, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher). Please refer to a fund’s prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

State Street Global All Cap Equity ex-U.S. Index Non-Lending Series Fund Class K
VRS Code: 906932
Fund Objective: The State Street Global All Cap Equity ex-U.S. Index Fund (the “Fund”) seeks an investment return that approximates as closely as practicable, before expenses, the performance of the MSCI ACWI ex-USA IMI Index (the “Index”) over the long term.
Fund Strategy: The Fund is managed using an “indexing” investment approach, by which SSGA attempts to approximate, before expenses, the performance of the Index over the long term. SSGA will typically attempt to invest in the equity securities comprising the Index, in approximately the same proportions as they are represented in the Index. Equity securities may include common stocks, preferred stocks, depository receipts, or other securities convertible into common stock. Equity securities held by the Fund may be denominated in foreign currencies and may be held outside the United States. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSGA may employ a sampling or optimization technique to construct the portfolio in question.
From time to time securities are added to or removed from the Index. SSGA may sell securities that are represented in the Index, or purchase securities that are not yet represented in the Index, prior to or after their removal or addition to the Index. SSGA may also utilize other pooled investment vehicles, including those managed by SSGA and its affiliates, as substitutes for gaining direct exposure to securities or a group of securities in the Index. The Fund may at times purchase or sell index futures contracts, or options on those futures, or engage in other transactions involving the use of derivatives, in lieu of investment directly in the securities making up the Index or to enhance the Fund’s replication of the Index return. The Fund’s return may not match the return of the Index.
**Fund Risk:** Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

**Footnotes:**
- The investment option is a collective investment trust. It is managed by State Street Global Advisors. This description is only intended to provide a brief overview of the fund.
- The MSCI ACWI ex-US Investable Market Index represents approximately 99% of the world’s total market capitalization outside the US. The ACWI ex US IMI defines the non-US equity asset class and covers 22 developed markets and 22 emerging markets. The IMI (Investable Market Index) combines large, mid & small capitalization equity offerings and thus, provides the broadest international exposure available. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 06/30/2015. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 04/18/2012, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher). The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool’s offering materials for information regarding its’ fees and expenses.

---

**State Street Target Retirement 2020 Non-Lending Series Fund Class W**

**VRS Code:** 884658

**Fund Objective:** The State Street Target Retirement 2020 Fund (the “Fund”) seeks an investment return that approximates, as closely as practicable, before expenses, the performance of a custom benchmark index (the “Index”) over the long term.

**Fund Strategy:** Each Fund seeks to achieve its objective by investing in a set of underlying SSGA collective trust funds representing various asset classes. Each Fund (other than the State Street Target Retirement Income Fund) is managed to a specific retirement year (target date) included in its name.

Over time, the allocation to asset classes and funds change according to a predetermined “glide path”. (The glide path represents the shifting of asset classes over time and does not apply to the Income Fund.) Each Fund’s asset allocation will become more conservative as it approaches its target retirement date. This reflects the need for reduced investment risks as retirement approaches and the need for lower volatility of a portfolio, which may be a primary source of income after retiring. The allocations reflected in the glide path do not reflect tactical decisions made by SSGA to overweight or underweight a particular asset class based on its market outlook but rather management of each fund’s strategic allocation according to its glide path and applicable benchmark. Each Fund attempts to closely match the characteristics and returns of its custom benchmark as opposed to any attempts to outperform this benchmark.

Once a Fund reaches its target retirement date, it will begin a five year transition period to the State Street Target Retirement Income Fund. At the end of that five year period the allocation to stocks, real estate investment trusts and commodities interests exposure will remain fixed at approximately 35% of assets. The remainder of the Fund will be invested in fixed-income securities.

**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund’s name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.
Footnotes:

- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- The custom benchmark index is a composite of S&P® 500, Russell Small Cap Completeness® Index, Bloomberg Roll Select Commodity IndexSM, MSCI ACWI ex USA IMI Index, Bloomberg U.S. Long Government Bond Index, Bloomberg U.S. Aggregate Bond Index, Bloomberg U.S. Intermediate Government Bond Index, Bloomberg 1-10 Year Government Inflation-Linked Bond Index, Bloomberg U.S. High Yield Very Liquid Index, Bloomberg U.S. 1-3 Year Government/Credit Bond Index, FTSE EPRA NAREIT Developed Index.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 06/24/2016. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 06/04/2009, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher). The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool’s offering materials for information regarding its fees and expenses.

(The glide path represents the shifting of asset classes over time and does not apply to the Income Fund.) Each Fund’s asset allocation will become more conservative as it approaches its target retirement date. This reflects the need for reduced investment risks as retirement approaches and the need for lower volatility of a portfolio, which may be a primary source of income after retiring. The allocations reflected in the glide path do not reflect tactical decisions made by SSGA to overweight or underweight a particular asset class based on its market outlook but rather management of each fund’s strategic allocation according to its glide path and applicable benchmark. Each Fund attempts to closely match the characteristics and returns of its custom benchmark as opposed to any attempts to outperform this benchmark. Once a Fund reaches its target retirement date, it will begin a five year transition period to the State Street Target Retirement Income Fund. At the end of that five year period the allocation to stocks, real estate investment trusts and commodities interests exposure will remain fixed at approximately 35% of assets. The remainder of the Fund will be invested in fixed-income securities.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund’s name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.
Footnotes:

- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- The custom benchmark index is a composite of S&P® 500, Russell Small Cap Completenss® Index, Bloomberg Roll Select Commodity IndexSM, MSCI ACWI ex USA IMI Index, Bloomberg U.S. Long Government Bond Index, Bloomberg U.S. Aggregate Bond Index, Bloomberg U.S. Intermediate Government Bond Index, Bloomberg 1-10 Year Government Inflation-Linked Bond Index, Bloomberg U.S. High Yield Very Liquid Index, Bloomberg U.S. 1-3 Year Government/Credit Bond Index, FTSE EPRA NAREIT Developed Index.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 06/24/2016. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 06/04/2009, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher). The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool’s offering materials for information regarding its’ fees and expenses.

State Street Target Retirement 2055 Non-Lending Series Fund Class W

VRS Code: 884665

Fund Objective: The State Street Target Retirement 2055 Fund (the “Fund”) seeks an investment return that approximates, as closely as practicable, before expenses, the performance of a custom benchmark index (the “Index”) over the long term.

Fund Strategy: Each Fund seeks to achieve its objective by investing in a set of underlying SSGA collective trust funds representing various asset classes. Each Fund (other than the State Street Target Retirement Income Fund) is managed to a specific retirement year (target date) included in its name. Over time, the allocation to asset classes and funds change according to a predetermined “glide path”. (The glide path represents the shifting of asset classes over time and does not apply to the Income Fund.) Each Fund’s asset allocation will become more conservative as it approaches its target retirement date. This reflects the need for reduced investment risks as retirement approaches and the need for lower volatility of a portfolio, which may be a primary source of income after retiring. The allocations reflected in the glide path do not reflect tactical decisions made by SSGA to overweight or underweight a particular asset class based on its market outlook but rather management of each fund’s strategic allocation according to its glide path and applicable benchmark. Each Fund attempts to closely match the characteristics and returns of its custom benchmark as opposed to any attempts to outperform this benchmark. Once a Fund reaches its target retirement date, it will begin a five year transition period to the State Street Target Retirement Income Fund. At the end of that five year period the allocation to stocks, real estate investment trusts and commodities interests exposure will remain fixed at approximately 35% of assets. The remainder of the Fund will be invested in fixed-income securities.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund’s name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

State Street Target Retirement Income Non-Lending Series Fund Class W

VRS Code: 884656

Fund Objective: The State Street Target Retirement Income Fund (the "Fund") seeks an investment return that approximates, as closely as practicable, before expenses, the performance of a custom benchmark index (the "Index") over the long term.

Fund Strategy: Each Fund seeks to achieve its objective by investing in a set of underlying SSGA collective trust funds representing various asset classes. Each Fund (other than the State Street Target Retirement Income Fund) is managed to a specific retirement year (target date) included in its name. Over time, the allocation to asset classes and funds change according to a predetermined “glide path”. (The glide path represents the shifting of asset classes over time and does not apply to the Income Fund.) Each Fund’s asset allocation will become more conservative as it approaches its target retirement date. This reflects the need for reduced investment risks as retirement approaches and the need for lower volatility of a portfolio, which may be a primary source of income after retiring. The allocations reflected in the glide path do not reflect tactical decisions made by SSGA to overweight or underweight a particular asset class based on its market outlook but rather management of each fund’s strategic allocation according to its glide path and applicable benchmark. Each Fund attempts to closely match the characteristics and returns of its custom benchmark as opposed to any attempts to outperform this benchmark. Once a Fund reaches its target retirement date, it will begin a five year transition period to the State Street Target Retirement Income Fund. At the end of that five year period the allocation to stocks, real estate investment trusts and commodities interests exposure will remain fixed at approximately 35% of assets. The remainder of the Fund will be invested in fixed-income securities.

Fund Risk: The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments carry issuer default and credit risk, inflation risk, and interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Principal invested is not guaranteed at any time, including at or after retirement. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.
Footnotes:

- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- The custom benchmark index is a composite of S&P® 500, Russell Small Cap Completeness® Index, Bloomberg Roll Select Commodity IndexSM, MSCI ACWI ex USA IMI Index, Bloomberg U.S. Long Government Bond Index, Bloomberg U.S. Aggregate Bond Index, Bloomberg U.S. Intermediate Government Bond Index, Bloomberg 1-10 Year Government Inflation-Linked Bond Index, Bloomberg U.S. High Yield Very Liquid Index, Bloomberg U.S. 1-3 Year Government/Credit Bond Index, FTSE EPRA NAREIT Developed Index.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 06/24/2016. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 06/04/2009, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool’s offering materials for information regarding its’ fees and expenses.
What is the Roth Governmental 457(b) Contribution Option?

A Roth contribution is available to employees who participate in the governmental 457(b) plan. For payroll purposes, Roth contributions are treated as after tax. This feature will allow participants to make Roth contributions to their plan while taking their earnings completely tax-free at retirement—as long as the withdrawal is a qualified one.

A qualified withdrawal is one that can be taken five tax years after the year of the first Roth contribution and after the participant has attained age 59½, has become disabled, or has died.

If you qualify to make traditional governmental 457(b) contributions, you are eligible for a Roth governmental 457(b) contribution.

How does a Roth governmental 457(b) contribution option work?

You elect a percentage (or dollar amount) of your salary that you wish to contribute to the Roth source, just as you would for your traditional governmental 457(b). The contribution is based on your eligible compensation, not on your net pay—for example, if your total annual eligible compensation is $40,000 per year and you elect a 6% deferral amount, then $2,400 per year would go into your Roth governmental 457(b) account.

Unlike your traditional governmental 457(b) pretax contribution, with a Roth governmental 457(b) contribution, you pay the taxes now on the contributions you make—but later your earnings are all tax-free, if you meet certain criteria.

Example: Sally earns $40,000 and has elected to put 6% toward her Roth governmental 457(b) contributions and 6% toward her traditional governmental 457(b) pretax contributions on a monthly basis.

<table>
<thead>
<tr>
<th></th>
<th>ROTH GOVERNMENTAL 457(b)*</th>
<th>TRADITIONAL GOVERNMENTAL 457(b)*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sally’s monthly contribution into each account</td>
<td>$200</td>
<td>$200</td>
</tr>
<tr>
<td>Sally’s reduction in take-home pay</td>
<td>$200</td>
<td>$156</td>
</tr>
</tbody>
</table>

*This hypothetical example is based solely on an assumed federal income tax rate of 22%. No other payroll deductions are taken into account. Your own results will be based on your individual tax situation.

Your combined Roth and traditional pretax governmental 457(b) contributions cannot exceed the IRS limits for the year.

Would a Roth 457(b) contribution option benefit me?

The potential benefits of Roth governmental 457(b) contributions really depend on your personal situation, but are mainly focused on your existing tax rate and your anticipated tax rate at the time of retirement. If you are contributing to a Roth, you are giving up a tax break today for a tax break in the future.

Therefore, a Roth contribution might benefit you if your tax rate in retirement were higher than it had been during the years you contributed.

If your tax rate were lower in retirement, then a traditional governmental 457(b) might be more beneficial to you than the Roth option. Talk with a tax professional for more information on how to determine if Roth governmental 457(b) contributions are right for you.

Is a traditional pretax governmental 457(b) still beneficial?

Yes. For many participants, a traditional pretax governmental 457(b) will still be the most beneficial type of retirement savings plan. We do not know what the future holds regarding tax rates. Therefore, it is not possible to predict with certainty which type of governmental 457(b) savings will be most beneficial to a participant.

Remember, because Roth governmental 457(b) contributions are made after tax, you may take home less money in your paycheck than you would if you contributed to a traditional pretax governmental 457(b).

For more information, please go to www.netbenefits.com/atwork.
Transfer/Rollover/Exchange Form
Instructions

Reference the instructions below while completing the form. For additional assistance, please contact Fidelity Investments at 1-800-343-0860 or, for the hearing impaired, dial 711, Monday through Friday, 8 a.m. to midnight Eastern time (excluding New York Stock Exchange holidays, except Good Friday).

1. YOUR INFORMATION

Please provide your information in this section.

2. INVESTMENT PROVIDER YOU ARE MOVING MONEY FROM

Please review your most recent statement for this name and address, and include a copy of the statement with this form. Please contact your previous investment provider to see if additional paperwork is required.

3. ACCOUNT(S) OR CONTRACT(S) TO MOVE

Account or Contract Number: This number is available on your previous investment provider account statement. If you are unable to locate this number on your statement, please contact the investment provider. If you do not provide an account or contract number, we will use your Social Security number or U.S. Tax Identification number to request the assets to be moved.

Type of Account or Contract: If you are unsure of the type of account or contract, please contact the Previous Investment Provider or refer to your statement. Select at least one.

The Account or Contract Number is from:

- The Same Employer as My Employer Plan with Fidelity. Movement of assets from 403(b) to 403(b) will be requested as a vendor or contract exchange. Movement of money between the same plan types, excluding 403(b) plans [401(a) to 401(a), 401(k) to 401(k), 457(b) to 457(b)], will be requested as an in-plan transfer. Movement of money between different plan types will be requested as a rollover.
- A Previous Employer. For 403(b) and 401(a)/(k) plans, this is a rollover transaction. For governmental 457(b) plans, this is a rollover unless Fidelity receives direction to process as a transfer.
- A Rollover IRA. This is a rollover transaction. After-tax value may not be rolled from an IRA.
- A Traditional IRA or SEP IRA. This is a rollover transaction. Roth IRAs and Coverdell IRAs cannot be accepted.

Liquidation Amount: Specify the amount of money you want moved to your Fidelity account. If you choose “Full Liquidation/100%,” Fidelity will request your full balance. If you choose “Partial Liquidation,” Fidelity will request the dollar amount or percentage you specify. If you do not specify an amount, Fidelity will move/liquidate 100%. If you are moving 457(b) assets, please be aware that governmental 457(b) assets must be moved into a governmental 457(b) plan, and nongovernmental 457(b) assets must be moved into a nongovernmental 457(b) plan. Transfers from nongovernmental 457(b) plans are not provided for on this form. Talk with your plan sponsor or call Fidelity to discuss transfers from nongovernmental 457(b) plans. Rollovers from 403(b) plans, 401(a)/401(k) plans, and IRAs to governmental 457(b) plans must be recordkept in separate rollover sources to limit the distributions that may be subject to a 10% early distribution penalty.

4. YOUR FIDELITY ACCOUNT INFORMATION

If you do not have a retirement account with Fidelity for the employer listed here, you must complete the enrollment process. For help with enrollment, please contact Fidelity at 1-800-343-0860 or for the hearing impaired dial 711.

Employer Sponsoring Your Fidelity Retirement Account: The employer name appears on your Fidelity account statement or in your enrollment paperwork.

Plan Type with this employer: This information is required to ensure that Fidelity credits your assets to the proper account. Please contact Fidelity at 1-800-343-0860 or for the hearing impaired dial 711 if you do not know your plan type.

Plan Number: Please provide the plan number if you have multiple retirement plan accounts with Fidelity. Please contact Fidelity at 1-800-343-0860 or for the hearing impaired dial 711 to obtain the plan number.
5. INVESTMENT INSTRUCTIONS

Would you like the assets invested in your current investment selection? If “Yes” is selected, your assets will be allocated to your current investment selection on file with Fidelity. If you do not select “Yes,” please list the fund names, fund codes (if known), and percentages. Please ensure that the percentages equal 100%. Please list any additional funds on a separate page and attach it to this form.

**Fund Name:** List the fund name(s) you want your assets credited to.
**Fund Code:** Provide the four-digit fund code(s) (if known).
**Percentage:** Please ensure that the percentages listed equal 100%.

**Note:** If no investment options are selected, your investment instructions are incomplete or invalid, or the percentages listed are less than or exceed 100%, your entire contribution will be defaulted to the investment elections on file with Fidelity. If you have no investment elections on file, your entire contribution will be defaulted to the investment option specified in the agreement currently in place with Fidelity for the Plan.

6. EMPLOYER PLAN ACCEPTANCE

**Employer Authorized Signature:** An authorized signature from the employer that sponsors your Fidelity retirement account may be required. To verify if this section needs to be signed, contact your Human Resources office or Fidelity at 1-800-343-0860 or for the hearing impaired dial 711.

7. SIGNATURE AND DATE

Please read the legal information provided in this section and then sign and date the form. We are unable to process your request without your signature and the date.

---

**Transfer/Rollover/Exchange Form Checklist:**

Use this checklist to ensure your request is complete:

- Include your most recent account statement from your previous investment provider.
- Indicate the amount or percentage of money you are moving to Fidelity.
- Sign and date Section 7 of this form.
- Please contact your previous provider to see if additional paperwork is required.
- Return completed form in a legible condition.

Ways to Return This Form to Fidelity:

- **Digitally using the NetBenefits® Mobile App**
  - Download the NetBenefits® app through the App Store® or Google Play™ store.
  - Tap: Actions > Send a Document

- **Regular Mail**
  - Fidelity Investments
  - PO Box 770002
  - Cincinnati, OH 45277-0090

- **Overnight Mail**
  - Fidelity Investments
  - 100 Crosby Parkway, Mailzone KC1E
  - Covington, KY 41015

Questions?

Call 800-343-0860 or for the hearing impaired dial 711, business days (except NYSE holidays) from 8:00AM – Midnight ET or go to www.Netbenefits.com/atwork.
**Transfer/Rollover/Exchange Form**

**Instructions:** Use this form to move assets to your Fidelity employer-sponsored retirement account from a previous investment provider. You may also use this form to consolidate multiple employer-sponsored retirement accounts currently at Fidelity. If you do not have a retirement account with Fidelity, you must also complete an Account Application/Enrollment Form or, when available, enroll online at netbenefits.com/atwork. If your current employer does not offer a retirement plan recordkept by Fidelity, your employer needs to establish a retirement plan prior to your vendor or contract exchange, or rollover to a Fidelity account. An incomplete form may delay the processing of your request. Use a separate form for each investment provider.

Unless otherwise instructed by your employer, please return this transfer/rollover/exchange form in the postage-paid envelope provided OR return to: If you are sending this using an overnight delivery Fidelity Investments service, please send to:

Fidelity Investments
100 Crosby Parkway, Mailzone KC1E
Covington, KY 41015

**Questions?** Call Fidelity Investments at 1-800-343-0860 or for the hearing impaired dial 711, Monday through Friday, 8 a.m. to midnight Eastern time (excluding New York Stock Exchange holidays, except Good Friday), for assistance with completing this form.

**1. YOUR INFORMATION**

Please use a **black** pen and print clearly in **CAPITAL LETTERS**.

Plan Type: □ 403(b) □ 401(a)/(k) □ 457(b) governmental
Plan Number (if known): ___________________________

If there is a discrepancy between plan type and plan number, the plan type selected will be used.

5. INVESTMENT INSTRUCTIONS

Would you like the assets invested in your current investment selection? □ Yes □ No (specify below)

Fund Name(s): ___________________________ Fund Code: ___________________________ Percentage: ___% OR ___% OR ___% OR ___% OR ___% Total = 100%

If no investment options are selected, your investment instructions are incomplete or invalid, or the percentages listed are less than or exceed 100%, your entire contribution will be defaulted to the investment elections on file with Fidelity. If you have no investment elections on file, your entire contribution will be defaulted to the investment option specified in the agreement currently in place with Fidelity for the Plan.

6. EMPLOYER PLAN ACCEPTANCE

An authorized signature from the employer that sponsors your Fidelity retirement account may be required. To verify if this section needs to be signed, contact your Human Resources office or Fidelity at 1-800-343-0860 or for the hearing impaired dial 711.

Employer Authorized Signature: X Date: ___________________________

Employer Authorized Printed Name: X
7. SIGNATURE AND DATE

By signing this form:

• I hereby direct the investment provider identified on this form in Section 2 to liquidate the designated amount of the account(s) listed on this form, and to release the proceeds to my account under my employer's plan, except to the extent my current employer or any of my former employers prohibit such release. In the event of such prohibition, I hereby direct said investment provider to retain the portion of my account(s) that cannot be released in a separate account or contract and to release the remainder.

• I hereby agree to the terms and conditions stated in this form, including the instructions, and certify that I am requesting a vendor or contract exchange, in-plan transfer, or rollover, of my retirement plan assets in accordance with applicable IRS and plan rules.

• I certify under the penalties of perjury that my Social Security number or U.S. Tax Identification number on this form is correct.

• I certify that the information provided on this form is true, accurate, and complete to the best of my knowledge.

• I hereby agree that I have read the prospectus(es) for any mutual fund in which I invest and agree to the terms.

• I hereby agree that if my assets will be sent to Fidelity in installments, the first installment may be invested according to my instructions on this form. All subsequent installment payments as well as any residual balances not received within 30 days will be invested according to the investment elections currently in place with Fidelity for the Plan at the time my assets are received by Fidelity.

For 403(b)-to-403(b) vendor or contract exchanges:

• I understand that any balances I am exchanging from a 403(b)(1) annuity into a 403(b)(7) custodial account may be subject to more restrictive withdrawal provisions.

• I understand that if I exchange a contribution source that is not allowed by the Plan, the value associated with the unacceptable source will be returned to the investment provider named in Section 2.

• I direct Fidelity to treat all monies as pretax contributions made subsequent to 12/31/88 unless my prior investment provider provides Fidelity with account balances as of 12/31/88 and post-1988 salary reduction contributions.

• I direct Fidelity to treat the entire balances as subject to minimum distribution requirements unless my prior investment provider provides Fidelity with account balances as of 12/31/86.

• I direct Fidelity to allocate the entire balance to the most restrictive source in the current employer's plan unless my prior investment provider provides Fidelity with the sources of the exchanged amount under the previous plan.
