Please contact Captain Jaymie Birney (jaymie.birney@montgomerycountymd.gov or 240-961-2912) with any comments, questions or concerns about the structure or training activities to be conducted.

****This plan will be in a packet format with multiple training plans designed to be facilitated at the company level. One safety plan will be part of the packet and designed to address all training plans. In-service training will be a separate training plan. The packet needs to be simple and to the point to ensure compliance. No other training will be authorized without the submission of a training plan that is approved by the PSTA. All use of the building including dates, times, and type of training must be approved by the PSTA.** This packet will also contain a schedule of training dates for all that request use of structure and be disseminated to all three Batt 1 BCs and Officers that request the use of the site. A list of rules and regulations See AST draft document (as they pertain to the HH and PSTA Training Chief) will be added****
