Fresh Funds

Overview

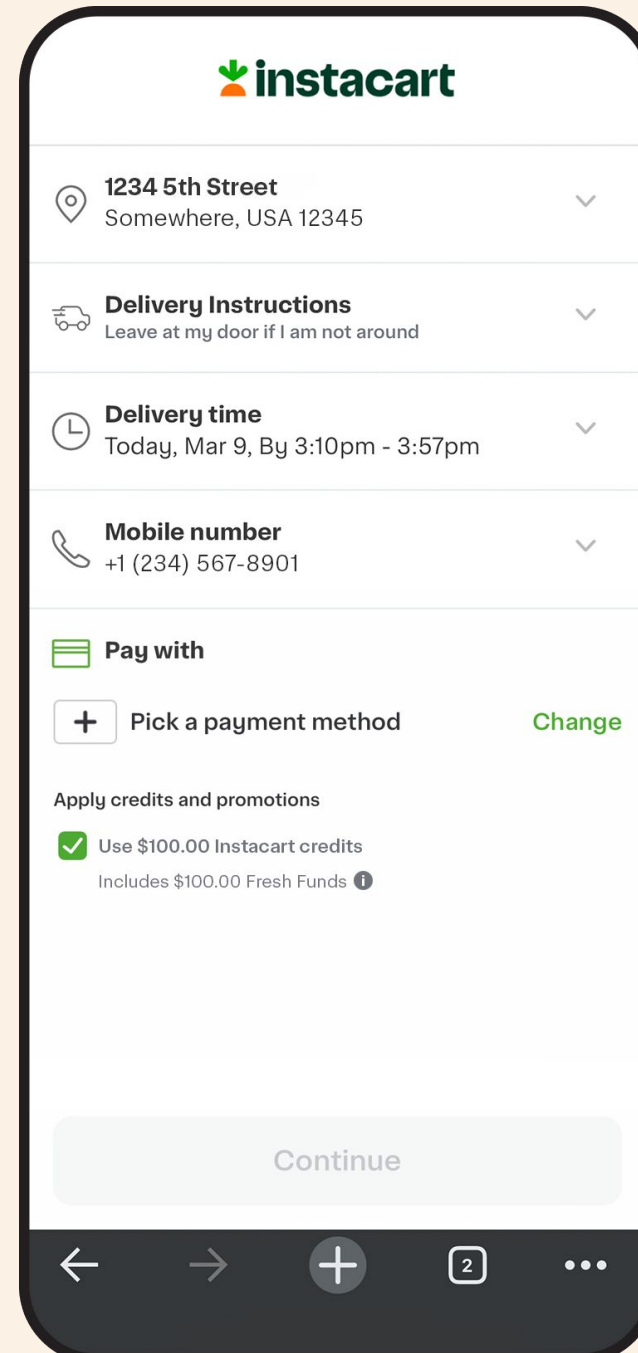

Funding Healthy Decisions

Financially empowering individuals to make their own healthy eating decisions can make a huge impact in their lives. Our Fresh Funds program allows benefit providers to fund category-specific stipends so recipients can make their own wellness choices.

As a Fresh Funds recipient, you can redeem your funds in a click, and they will be added to your Instacart account and auto-applied on all eligible items at checkout — making healthy eating easier than ever. You can [view additional terms here](#) or keep reading for more information on how to use Fresh Funds.
