Executive Summary

2021 Maryland-National Capital Park & Planning Commission Survey - Executive Summary

Purpose and Methodology

During the summer of 2021, ETC Institute administered a survey to residents of Montgomery County on behalf of the Maryland-National Capital Park & Planning Commission. The purpose of the survey was to help establish future development of public spaces and programs throughout Montgomery County, as well as establish priorities for parks, recreation facilities, programs and services.

A six-page survey and cover letter were mailed to a random sample of households in Montgomery County. Approximately ten days after the surveys were mailed, residents who received the survey were contacted by email to encourage participation. Of the households that received a survey, 831 completed the survey. The overall results for 831 households have a precision of at least +/-3.4% at the 95% level of confidence.

This report contains:

- a summary of the methodology for administering the survey and major findings
- charts showing the overall results for most questions on the survey (Section 1)
- Importance-Agreement/Satisfaction analysis that identifies priorities for investment (Section 2)
- cross-tabular data showing the overall results by race/ethnicity and household type (Sections 3 and 4)
- tabular data showing the overall results for all questions on the survey (Section 5)
- a copy of the cover letter and survey instrument (Section 6)

Importance of Choosing Where to Live

Residents were asked to rate the level of importance of various aspects in choosing where to live. Nearly all (98%) of those surveyed, who had an opinion, indicated crime/safety was “extremely important” or “important.” Other aspects that residents indicated were similarly important include: parks/trails/recreation (93%), traffic congestion (90%), and public schools (88%).

2021 Maryland-National Capital Park & Planning Commission Survey - Executive Summary

Achieving Personal Goals

Most residents surveyed (95%) who had an opinion indicated they "definitely" or "probably" will try to get more exercise/be more physically active over the next year. Other personal goals that residents indicated they would "definitely" or "probably" attempt to achieve include: reduce levels of stress/anxiety (90%), lose weight/eat healthier (82%), and spend more time with family (79%).

Time Management During Days Off

Activities that residents spent the largest quantity of time doing (2 hours or more) on their most recent day off, among those who provided a response, included: relaxing (38%), getting together with friends (35%), watching a movie or show on television (35%), reading a book for fun (24%), and exercising (24%).

When respondents were asked which activities they would most like to spend time doing on their next day off, based on the sum of their top three choices, the top answers were: 1) exercising, 2) getting together with friends, and 3) reading a book for fun.

Frequency of Various Activities

More than three-fourths (77%) of residents who provided a response indicated they hike or walk for fun once a month or more. Other activities respondents indicated they do once a month or more include: going out to eat (77%), visiting a park (65%), inviting a friend to their home (51%), and participating in an individual sport (48%).

Frequency of Exercise

More than one-fourth (29%) of residents who provided a response indicated they typically get 30 or more minutes of exercise at least 5 days a week; 23% get this amount of exercise 4 to 5 days a week; 31% exercise 2 to 3 days a week; 12% exercise 1 day a week, and 5% indicated they never exercise.

Adequacy of Amenities in Montgomery County

When residents were asked to rate the level of adequacy of various types of parks and recreation amenities in Montgomery County, the amenities that respondents who had an opinion indicated were "fully adequate" or "adequate" included: playgrounds (78%), athletic fields (for team sports) (78%), basketball courts (77%), natural trails (dirt/gravel) (73%), and picnic areas/shelters (71%).

Based on the sum of their top three choices, the amenities that respondents indicated are most important to their household were: 1) natural trails (dirt/gravel), 2) natural areas/wildlife habitat, and 3) paved trails.

2021 Maryland-National Capital Park & Planning Commission Survey - Executive Summary

Agreement With Statements About Parks and Recreation in the County

Residents were asked to provide their level of agreement with various statements about parks and recreation in Montgomery County. Of those who had an opinion, 84% "strongly agreed" or "mostly agreed" that they feel welcome in Montgomery County parks; 81% agreed with the statement, *Montgomery County has park and recreation facilities for people like me;"* 77% agreed with the statement, *"I feel safe in the parks,"* and 77% agreed with the statement, *"I know where to look for information about parks, trails and recreation facilities*."

Based on the sum of their top three choices, the statements about parks and recreation that residents believe the County should focus on most over the next 5 years were: 1) *"We need more park and recreation options that are suitable for seniors,"* 2) *"I feel safe in the parks,"* and 3) *"The park system should focus more on preserving nature and the environment."*

Satisfaction With Aspects of Parks and Recreation in the County

More than three-fourths (78%) of residents who had an opinion were "very satisfied" or "satisfied" with feeling welcome in Montgomery County parks and recreation facilities; 77% were satisfied with the quality of parks, recreation facilities, and trails; 75% were satisfied with the hours of operation, 69% were satisfied with the feeling of safety, and 68% were satisfied with the availability of parking.

Based on the sum of their top three choices, the parks and recreation items that residents indicated the County should focus on most over the next 5 years were: 1) access to restrooms, 2) feeling of safety, and 3) maintenance and physical condition.

Activities in Which Residents Have Participated in Montgomery County

Residents were asked to select which activities they had participated in during the past year in Montgomery County. Fifty-nine percent (59%) indicated they had picked up litter at a park, trail, or recreation facility; 26% had posted on social media or talked to friends about parks, trails, and recreation facilities, and 12% indicated they had made a donation in support of those types of places. *Multiple selections could be made for this question.*

Importance of Parks, Trails, & Facilities in Playing a Role in Various Areas

Residents were asked to rate the level of importance that parks, trails, and recreation facilities have in playing a role in various areas. Most respondents surveyed (95%) who had an opinion indicated supporting a high quality of life in every part of the County was "extremely important" or "important." Other roles that residents indicated were similarly important include: protecting the natural environment/addressing climate change (92%), encouraging healthy lifestyles and physical fitness (91%), and improving mental health and reducing stress (91%).

2 Importance-Agreement/Satisfaction Analysis

Importance-Agreement/Satisfaction Analysis

Overview

Today, community leaders have limited resources which need to be targeted to activities that are of the most benefit to their citizens. Two of the most important criteria for decision making are (1) to target resources toward services of the highest importance to citizens; and (2) to target resources toward those services where citizens are the least satisfied.

The Importance-Agreement/Satisfaction (I-A/S) rating is a unique tool that allows public officials to better understand both of these highly important decision-making criteria for each of the services they are providing. The Importance-Agreement/Satisfaction (I-A/S) rating is based on the concept that public agencies will maximize overall customer satisfaction by emphasizing improvements in those areas where the level of agreement or satisfaction is relatively low, and the perceived importance of the service is relatively high.

The rating is calculated by summing the percentage of responses for items selected as the first, second, and third most important services for the County to provide. The sum is then multiplied by 1 minus the percentage of respondents who indicated they were in agreement or positively satisfied with the County's performance in the related area (the sum of the ratings of 4 and 5 on a 5-point scale excluding "don't know" responses). "Don't know" responses are excluded from the calculation to ensure the satisfaction ratings among service categories are comparable.

I-A/S Rating = Importance x (1-Agreement/Satisfaction)

Example of the Calculation

Respondents were asked to identify various aspects of parks and recreation in Montgomery County that were most important to their household. Approximately forty-one percent (40.8%) of the households selected *"access to restrooms"* as one of the most important parks and recreation amenities to emphasize over the next five years.

With regard to satisfaction, 37% of respondents surveyed rated *"access to restrooms"* as a "4" or "5" on a 5-point scale (where "5" means "Very Satisfied"), excluding "don't know" responses. The I-S rating was calculated by multiplying the sum of the most important percentages by one minus the sum of the satisfaction percentages. In this example, 40.8% was multiplied by 63% (1-0.37). This calculation yielded an I-S rating of 0.2570, which ranked first out of twelve categories of parks and recreation amenities analyzed.

Importance-Agreement/Satisfaction Analysis

The maximum rating is 1.00 and would be achieved when 100% of the respondents select an item as one of their top three choices of importance and 0% indicate they are positively satisfied with the delivery of the service.

The lowest rating is 0.00 and could be achieved under either of the following two situations:

- If 100% of the respondents were positively satisfied with the delivery of the service
- If none (0%) of the respondents selected the service as one of the three most important areas.

Interpreting the Ratings

Ratings that are greater than or equal to 0.20 identify areas that should receive significantly more emphasis over the next two years. Ratings from 0.10 to 0.20 identify service areas that should receive increased emphasis. Ratings less than 0.10 should continue to receive the current level of emphasis.

- *Definitely Increase* Emphasis (I-S > 0.20)
- *Increase* Current Emphasis (I-S = 0.10 - 0.20)
- *Maintain* Current Emphasis (I-S < 0.10)

6 Survey Instrument

THE MARYLAND-NATIONAL CAPITAL PARK & PLANNING COMMISSION

Dear Montgomery County Resident:

Your response to the enclosed survey is extremely important.

Your household has been selected at random to participate in an opinion survey conducted by The Maryland-National Capital Park and Planning Commission. Your response to the enclosed survey will help establish future development of public spaces and programs throughout Montgomery County.

Your household was one of a limited number selected at random to receive this survey.

It is important that you answer every question. The outcome of this survey will help establish priorities for parks, recreation facilities, programs, and services within the County. The survey will take approximately 15 minutes.

Please complete and return your survey within the next two weeks.

Return your completed survey in the enclosed postage-paid envelope addressed to ETC Institute, 725 W. Frontier Circle, Olathe, KS 66061. ETC Institute is an independent consulting company that M-NCPPC has selected to administer this survey.

If it is more convenient, you may also complete the survey online, 中文版调查,
Versión en español de la encuesta: **MontgomerySurvey.com**

Your responses will always remain confidential and anonymous.

As a courtesy, we may follow up with your household by phone or email to see if you have any questions or need assistance completing and returning the survey.

If you have any questions, please contact the project manager, Rachel Newhouse, Montgomery Parks at 301.650.4388, Rachel.Newhouse@montgomeryparks.org, or visit our website at www.MontgomeryParks.org.

Thank you for your participation in this opinion survey. We deeply appreciate your time.

Si tiene preguntas acerca de la encuesta y no habla inglés, par favor llame al 1-844-811-0411 y pregunte por Norma. Gracias.

This survey will take 15-20 minutes to complete. When you are finished, please return your survey in the enclosed postage-paid, return-reply envelope. If you prefer, you may also complete the survey online at *MontgomerySurvey.com*. We appreciate your time!
