- **This is critical** because, currently, no staff are dedicated to managing any specific facility. Staff will be rotated frequently in different areas of CUPF operations based upon operational need. If you send emails directly to CUPF staff email addresses or a voicemail message at staff extensions, you may not receive an immediate response as it will need to be forwarded to our central email address noted above or to the proper staff representative before being processed or responded to.

Rest assured that our excellent staff at CUPF are closely monitoring our central office email in-box! We have you covered.

Thank you for your help in our efforts to provide the best customer care possible! We will continue to keep you informed as changes to our processes and software move forward.

If you have any questions or concerns, please let us know by calling **240-777-2725**, or via email to cupf@montgomerycountymd.gov.
