Montgomery County Supports Fire Safety Measures

Top 3 Things You Need to Know about Smoke Alarms

1. ALL Smoke Alarms have expiration dates.

Not just the batteries - the actual alarm. If your hard-wired or battery smoke alarms are 10 years or older, it's time to replace them with new ones. Why? The sensors that detect smoke wear out. All electronic devices eventually wear out; take care of the ones that can save your life.

2. Maryland has a new Smoke Alarm Law.

Smoke alarm technology has advanced and battery-only smoke alarms must be replaced with smoke alarms with sealed, 10-year batteries by 1/1/2018.

3. We'll even do it for you!

Smoke alarms are one of the most important safety features in your home. We urge all residents to schedule a free home safety visit by the fire department to ensure your smoke alarms are up-to-date. Visit www.mcfrs.org/mcsafe or call 3-1-1 for information.
