**Business Recycling: It's the Law.**

## Montgomery County Recognizes Outstanding Recyclers

The Montgomery County Division of Solid Waste Services (DSWS), Waste Reduction and Recycling Section coordinated its annual Recycling Awareness Week from May 20 to May 24, 2013. Throughout the week, DSWS held a series of educational activities to promote awareness and showcase outstanding recycling efforts of businesses, multi-family properties, and individuals in Montgomery County.

DSWS selected twelve private schools for an educational presentation entitled "The Magic of Recycling." As part of the program, students were asked to think about the recycling process and how easy it is to recycle. The students learned through a series of magic tricks, about the importance of recycling and participated in a play about a village that didn't recycle and had too much garbage. Rocco, the Recycling Retriever, also made an appearance at the end of each show and tested the children's recycling knowledge by asking them to help sort through a pile of recyclable materials and trash.

Throughout the week, DSWS held other outreach and educational activities including its 14th Annual Recycling Achievement Recognition Ceremony where it recognized businesses, multi-family properties, and individuals for their contributions towards recycling excellence. Mr. Jonathan Powers, Federal Environmental Executive, served as the ceremony's Keynote Speaker.

# Montgomery County Recycling Awareness Week 2013
