*Natalie Zimmerman, District 2, Board of Education*

MCPS goal is to achieve 4 star ranking for all schools. MCPS published rubric for schools and public so schools would know how they were being judged which helped several schools raise their ranking. Criteria does include staff and family participation and staff turnover.

Math and English proficiency—noted challenges with achieving higher test scores. More summer school offerings in UpCounty are needed to avoid summer slide. Noted that Title 1 status affects which schools get offerings.

Noted concerns about availability of summer meals at schools from Clarksburg northward. Summer school offerings could help increase the availability.

Absenteeism as a measure of decline in school ranking. Chronic absenteeism is defined as 10% or more of school days missing. A letter is sent home if close to threshold. Goal is 95%+ not chronically absent. This is happening in elementary and middle schools, but not high schools. High school is at 92%. Family involvement is a factor.

Discussed history of Loss of Credit policy for unexcused absent or tardies. This policy changed during the pandemic due to concerns regarding disparities in implementation and inequities.

Changes to grading policy were also noted as making more difficult now to skip a significant portion of semester and pass.

Discussed boundary review—using Crown or Wooten as a holding school; Darnestown desire to be moved from Northwest cluster to Quince Orchard (via community civic member)

Discussed concerns regarding school budget pressures—less Federal money, special education funding, funding for teacher healthcare and pension. Hopeful some money could be saved by contracting less.
