

Lessons from Abuelina

LESSON #1 The Pedestrian Hybrid Beacons (PHBs) make crossing safer for everyone!

PHBs allow pedestrians to cross the street more safely. The device is dark/inactive unless activated by a pedestrian.

DRIVERS

1 **SLOW DOWN** when lights are flashing

2 **STOP** and **WAIT** for pedestrians to cross

3 **WAIT** until there are no lights or pedestrians crossing, then go

PEDESTRIANS

1 **PUSH** the button to activate the WALK signal

2 **WAIT** a few seconds

3 **CROSS** when the signal is lit and cars have stopped
